"The man who many considered the peace candidate in the last election was transformed into a war president," writes bestselling author and leading academic Stephen I. Carter in *The Violence of Peace*, his new book decoding what President Barack Obama's views on war mean for America and its role in military conflict, now and going forward. As America winds down a war in Iraq, ratchets up another in Afghanistan, and continues a global war on terrorism, Carter delves into the implications of the military philosophy Obama has adopted through his first two years in office. Responding to the invitation that Obama himself issued in his Nobel address, Carter uses the tools of the Western tradition of just and unjust war to evaluate Obama's actions and words about military conflict, offering insight into how the president will handle existing and future wars, and into how his judgment will shape America's fate. Carter also explores war as a way to defend others from tyrannical regimes, which Obama has endorsed but not yet tested, and reveals the surprising ways in which some of the tactics Obama has used or authorized are more extreme than those of his predecessor, George W. Bush. "Keeping the nation at peace," Carter writes, "often requires battle," and this book lays bare exactly how America's wars in Afghanistan and Iraq are shaping the way Obama views the country's role in conflict and peace, ultimately determining the fate of the nation.

For the Glory

John Hoyte was a student at Cambridge University who realized one day that a grant he might get could provide an interesting and unusual summer vacation. And thus was born the idea of leading an elephant over the Alps via the trails, paths, and mountain passes taken by Hannibal with his army and war elephants in 218 B.C to do battle with the Roman

empire. Hoyte's successful mission, with an elephant named Jumbo on loan from the Turin zoo, became a media sensation, leading to international coverage and starting him on the way to a fifty-year career as an inventor and entrepreneur in Silicon Valley. Hoyte's story is a fascinating one, beginning with the six years of his childhood spent in a Japanese internment camp in China during World War II. Throughout the years that followed, he has taken each surprising twist and turn of fate and used it to help build a life infused with purpose, creativity and fulfillment.

From the acclaimed Eisner Award-nominated creator of *Two Generals* and *Northwest Passage* comes a gorgeous and spare illustrated exploration of the rapid rise and tragic fall of 1920s legendary jazz soloist Leon "Bix" Beiderbecke. Told in stunning illustrations, *Bix* is a near-wordless graphic exploration highlighting the career of Leon Bix Beiderbecke, one of the most innovative jazz soloists of the 1920s next to the legendary Louis Armstrong. While composing and recording some of the landmark music in the early history of genre, Bix struggled with personal demons, facing the disapproval of his conservative parents and an increasing dependence on alcohol. Presented in predominantly silent panels to reflect his rebellious outsider quality and inability to communicate in anything other than his own musical terms, *Bix* tells the story of a music star's rapid rise and tragic fall—a metaphor for the glories and risks inherent in the creative life.

#1 NEW YORK TIMES BESTSELLER • David Brooks challenges us to rebalance the scales between the focus on external success—"résumé virtues"—and our core principles. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE ECONOMIST With the wisdom, humor, curiosity, and sharp insights that have brought millions of readers to his New York Times column and his previous bestsellers, David Brooks has consistently illuminated our daily lives in surprising and original ways. In *The Social Animal*, he explored the neuroscience of human connection and how we can flourish together. Now, in *The Road to Character*, he focuses on the deeper values that should inform our lives. Looking to some of the world's greatest thinkers and inspiring leaders, Brooks explores how, through internal struggle and a sense of their own limitations, they have built a strong inner character. Labor activist Frances Perkins understood the need to suppress parts of herself so that she could be an instrument in a larger cause. Dwight Eisenhower organized his life not around impulsive self-expression but considered self-restraint. Dorothy Day, a devout Catholic convert and champion of the poor, learned as a young woman the vocabulary of simplicity and surrender. Civil rights pioneers A. Philip Randolph and Bayard Rustin learned reticence and the logic of self-

discipline, the need to distrust oneself even while waging a noble crusade. Blending psychology, politics, spirituality, and confessional, *The Road to Character* provides an opportunity for us to rethink our priorities, and strive to build rich inner lives marked by humility and moral depth. “Joy,” David Brooks writes, “is a byproduct experienced by people who are aiming for something else. But it comes.” Praise for *The Road to Character* “A hyper-readable, lucid, often richly detailed human story.”—*The New York Times Book Review* “This profound and eloquent book is written with moral urgency and philosophical elegance.”—Andrew Solomon, author of *Far from the Tree* and *The Noonday Demon* “A powerful, haunting book that works its way beneath your skin.”—*The Guardian* “Original and eye-opening . . . Brooks is a normative version of Malcolm Gladwell, culling from a wide array of scientists and thinkers to weave an idea bigger than the sum of its parts.”—*USA Today*

A Spectator's Guide to World Religions

After Confucius is a collection of eight studies of Chinese philosophy from the time of Confucius to the formation of the empire in the second and third centuries B.C.E. As detailed in a masterful introduction, each essay serves as a concrete example of “thick description”—an approach invented by philosopher Gilbert Ryle—which aims to reveal the logic that informs an observable exchange among members of a community or society. To grasp the significance of such exchanges, it is necessary to investigate the networks of meaning on which they rely. Paul R. Goldin argues that the character of ancient Chinese philosophy can be appreciated only if we recognize the cultural codes underlying the circulation of ideas in that world. Thick description is the best preliminary method to determine how Chinese thinkers conceived of their own enterprise. Who were the ancient Chinese philosophers? What was their intended audience? What were they arguing about? How did they respond to earlier thinkers, and to each other? Why did those in power wish to hear from them, and what did they claim to offer in return for patronage? Goldin addresses these questions as he looks at several topics, including rhetorical conventions of Chinese philosophical literature; the value of recently excavated manuscripts for the interpretation of the more familiar, received literature; and the duty of translators to convey the world of concerns of the original texts. Each of the cases investigated in this wide-ranging volume exemplifies the central conviction behind Goldin’s plea for thick description: We do not do justice to classical Chinese philosophy unless we engage squarely the complex and ancient culture that engendered it. The purpose of this book is to call the people of God to a renewed devotion to the the Bible by pointing to the beauty and the bounty of the God who speaks there. In its pages, Dr. Rieben demonstrates how knowledge of the Bible, devotion to its Author, and the practice of His commands will instill within us an unshakable confidence so that we can declare with the Psalmist "though an army besiege me I will not fear, though war break out against me, I will not fear."

Shanghai in the 1930s was one of the world's most dangerous cities, with kidnappings and murders as daily occurrences. British police officer E. W. Peters of the Shanghai Municipal Police leads the way down the city's dark lanes and alleys, through a crime-ridden underworld of brothels, opium dens, and gambling parlors. This often riotous, true-crime chronicle is filled with colorful criminals, fumbled police raids, and gross misunderstandings, one of which lands the author on trial for murder. Here, old Shanghai is depicted at its most exciting.

A Boy's War

A remarkable account of the amazing life story of the man who inspired the film Hotel Rwanda Readers who were moved and horrified by Hotel Rwanda will respond even more intensely to Paul Rusesabagina's unforgettable autobiography. As Rwanda was thrown into chaos during the 1994 genocide, Rusesabagina, a hotel manager, turned the luxurious Hotel Milles Collines into a refuge for more than 1,200 Tutsi and moderate Hutu refugees, while fending off their would-be killers with a combination of diplomacy and deception. In An Ordinary Man, he tells the story of his childhood, retraces his accidental path to heroism, revisits the 100 days in which he was the only thing standing between his "guests" and a hideous death, and recounts his subsequent life as a refugee and activist. From the Trade Paperback edition.

War Trash

The untold and inspiring story of Eric Liddell, hero of Chariots of Fire, from his Olympic medal to his missionary work in

China to his last, brave years in a Japanese work camp during WWII Many people will remember Eric Liddell as the Olympic gold medalist from the Academy Award winning film Chariots of Fire. Famously, Liddell would not run on Sunday because of his strict observance of the Christian sabbath, and so he did not compete in his signature event, the 100 meters, at the 1924 Paris Olympics. He was the greatest sprinter in the world at the time, and his choice not to run was ridiculed by the British Olympic committee, his fellow athletes, and most of the world press. Yet Liddell triumphed in a new event, winning the 400 meters in Paris. Liddell ran--and lived--for the glory of his God. After winning gold, he dedicated himself to missionary work. He travelled to China to work in a local school and as a missionary. He married and had children there. By the time he could see war on the horizon, Liddell put Florence, his pregnant wife, and children on a boat to Canada, while he stayed behind, his conscience compelling him to stay among the Chinese. He and thousands of other westerners were eventually interned at a Japanese work camp. Once imprisoned, Liddell did what he was born to do, practice his faith and his sport. He became the moral center of an unbearable world. He was the hardest worker in the camp, he counseled many of the other prisoners, he gave up his own meager portion of meals many days, and he organized games for the children there. He even raced again. For his ailing, malnourished body, it was all too much. Liddell died of a brain tumor just before the end of the war. His passing was mourned around the world, and his story still inspires. In the spirit of The Boys in the Boat and Unbroken, For the Glory is both a compelling narrative of athletic heroism and a gripping story of faith in the darkest circumstances. From the Hardcover edition.

I created a blog - mexislang.com - where I started posting entries for my students, to better explain them how slang words were used and why. These blog posts have evolved into this book. What Would You Do?

"The Joy Luck Club is one of my favorite books. From the moment I first started reading it, I knew it was going to be incredible. For me, it was one of those once-in-a-lifetime reading experiences that you cherish forever. It inspired me as a writer and still remains hugely inspirational." —Kevin Kwan, author of Crazy Rich Asians Amy Tan's beloved, New York Times bestselling tale of mothers and daughters Four mothers, four daughters, four families whose histories shift with the four winds depending on who's "saying" the stories. In 1949 four Chinese women, recent immigrants to San Francisco, begin meeting to eat dim sum, play mahjong, and talk. United in shared unspeakable loss and hope, they call themselves the Joy Luck Club. Rather than sink into tragedy, they choose to gather to raise their spirits and money. "To despair was to wish back for something already lost. Or to prolong what was already unbearable." Forty years later the stories and history

continue. With wit and sensitivity, Amy Tan examines the sometimes painful, often tender, and always deep connection between mothers and daughters. As each woman reveals her secrets, trying to unravel the truth about her life, the strings become more tangled, more entwined. Mothers boast or despair over daughters, and daughters roll their eyes even as they feel the inextricable tightening of their matriarchal ties. Tan is an astute storyteller, enticing readers to immerse themselves into these lives of complexity and mystery.

On Niebuhr

"Lianyungang, a booming port city, has China's most extreme gender ratio for children under four: 163 boys for every 100 girls. These numbers don't seem terribly grim, but in ten years, the skewed sex ratio will pose a colossal challenge. By the time those children reach adulthood, their generation will have twenty-four million more men than women. The prognosis for China's neighbors is no less bleak: Asia now has 163 million females "missing" from its population. Gender imbalance reaches far beyond Asia, affecting Georgia, Eastern Europe, and cities in the U.S. where there are significant immigrant populations. The world, therefore, is becoming increasingly male, and this mismatch is likely to create profound social upheaval. Historically, eras in which there have been an excess of men have produced periods of violent conflict and instability. Mara Hvistendahl has written a stunning, impeccably-researched book that does not flinch from examining not only the consequences of the misbegotten policies of sex selection but Western complicity with them"--

Give Me That Book: A Treasury of Truth for Troubled Times

Women, Ministry and the Gospel

Does your faith in the God of the impossible need reviving? Do you think that stories of walls of fire and hosts of guardian angels protecting God's children are only for Bible times? Then you should read the amazing accounts in this book of how God and His unseen armies protected and guided Marie Monsen, a Norwegian missionary to China, as she traveled through bandit-ridden territory spreading the Gospel of Jesus Christ and standing on the promises of God. You will be amazed as she tells of an invading army of looters who ravaged a whole city, yet were not allowed to come near her mission compound because of angels standing sentry over it. Your heart will thrill as she tells of being held captive on a ship for twenty-three days by pirates whom God did not allow to harm her, but instead were compelled to listen to her message of a loving Savior who died for their sin. As you read the many stories in this small volume your faith will be strengthened by the realization that our God is a living God who can still bring protection and peace in the midst of the storms of distress, confusion and terror-a very present help in trouble.

The Violence of Peace

Persistence of Light

The history of chemistry is a story of human endeavor-and as erratic as human nature itself. Progress has been made in fits and starts, and it has come from all parts of the globe. Because the scope of this history is considerable (some 100,000 years), it is necessary to impose some order, and we have organized the text around three discernible-albeit gross--divisions of time: Part 1 (Chaps. 1-7) covers 100,000 B.C. (Before Common Era) to the late 1700s and presents the background of the Chemical Revolution; Part 2 (Chaps. 8-14) covers the late 1700s to World War I and presents the Chemical Revolution and its consequences; Part 3 (Chaps. 15-20) covers World War I to 1950 and presents the Quantum Revolution and its consequences and hints at revolutions to come. There have always been two tributaries to the chemical stream: experiment and theory. But systematic experimental methods were not routinely employed until the 1600s-and quantitative theories did not evolve until the 1700s-and it can be argued that modern chemistry as a science did not begin until the Chemical Revolution in the 1700s. xi xii PREFACE We argue however that the first experiments were performed by artisans and the first theories proposed by philosophers-and that a revolution can be understood only in terms of what is being revolted against.

Steering Through Chaos

The world is a very religious place. Wherever you look, people are worshipping, praying, believing, following, even dying for their faith. But are all faiths the same? Do they all call on the same God using different names? Are their beliefs and practices simply cultural expressions of the same spiritual longings? In this timely book, John Dickson presents each of the world's major religions in its best light. He carefully outlines the history, belief systems and spiritual practices of Hinduism, Buddhism, Judaism, Christianity and Islam so that the interested 'spectator' can explore their similarities and differences. For sceptics, believers and students of religion the book provides a fair and friendly introduction to this ultimate subject.

Ethics & International Affairs

This book comprehensively discusses the topic of Jews fleeing the Holocaust to China. It is divided into three parts: historical facts; theories; and the Chinese model. The first part addresses the formation, development and end of the Jewish refugee community in China, offering a systematic review of the history of Jewish Diaspora, including historical and recent events bringing European Jews to China; Jewish refugees arriving in China: route, time, number and settlement; the Jewish refugee community in Shanghai; Jewish refugees in other Chinese cities; the "Final Solution" for Jewish refugees in Shanghai and the "Designated Area for Stateless Refugees"; friendship between the Jewish refugees and the local Chinese people; the departure of Jews and the end of the Jewish refugee community in China. The second part provides deeper perspectives on the Jewish refugees in China and the relationship between Jews and the Chinese. The third part explores the Chinese model in the history of Jewish Diaspora, focusing on the Jews fleeing the Holocaust to China and compares the Jewish refugees in China with those in other parts of the world. It also introduces the Chinese model concept and presents the five features of the model.

The Human Puzzle

Ha Jin's masterful new novel casts a searchlight into a forgotten corner of modern history, the experience of Chinese soldiers held in U.S. POW camps during the Korean War. In 1951 Yu Yuan, a scholarly and self-effacing clerical officer in Mao's "volunteer" army, is taken prisoner south of the 38th Parallel. Because he speaks English, he soon becomes an

intermediary between his compatriots and their American captors. With Yuan as guide, we are ushered into the secret world behind the barbed wire, a world where kindness alternates with blinding cruelty and one has infinitely more to fear from one's fellow prisoners than from the guards. Vivid in its historical detail, profound in its imaginative empathy, *War Trash* is Ha Jin's most ambitious book to date. From the Trade Paperback edition.

Gilkey on Tillich

A landmark work of narrative history, *Paris 1919* is the first full-scale treatment of the Peace Conference in more than twenty-five years. It offers a scintillating view of those dramatic and fateful days when much of the modern world was sketched out, when countries were created—Iraq, Yugoslavia, Israel—whose troubles haunt us still. Winner of the Samuel Johnson Prize • Winner of the PEN Hessell Tiltman Prize • Winner of the Duff Cooper Prize Between January and July 1919, after “the war to end all wars,” men and women from around the world converged on Paris to shape the peace. Center stage, for the first time in history, was an American president, Woodrow Wilson, who with his Fourteen Points seemed to promise to so many people the fulfillment of their dreams. Stern, intransigent, impatient when it came to security concerns and wildly idealistic in his dream of a League of Nations that would resolve all future conflict peacefully, Wilson is only one of the larger-than-life characters who fill the pages of this extraordinary book. David Lloyd George, the gregarious and wily British prime minister, brought Winston Churchill and John Maynard Keynes. Lawrence of Arabia joined the Arab delegation. Ho Chi Minh, a kitchen assistant at the Ritz, submitted a petition for an independent Vietnam. For six months, Paris was effectively the center of the world as the peacemakers carved up bankrupt empires and created new countries. This book brings to life the personalities, ideals, and prejudices of the men who shaped the settlement. They pushed Russia to the sidelines, alienated China, and dismissed the Arabs. They struggled with the problems of Kosovo, of the Kurds, and of a homeland for the Jews. The peacemakers, so it has been said, failed dismally; above all they failed to prevent another war. Margaret MacMillan argues that they have unfairly been made the scapegoats for the mistakes of those who came later. She refutes received ideas about the path from Versailles to World War II and debunks the widely accepted notion that reparations imposed on the Germans were in large part responsible for the Second World War. Praise for *Paris 1919* “It’s easy to get into a war, but ending it is a more arduous matter. It was never more so than in 1919, at the Paris Conference. . . This is an enthralling book: detailed, fair, unfailingly lively. Professor MacMillan has that essential quality of the historian, a narrative gift.” —Allan Massie, *The Daily Telegraph* (London)

The first 48 hours are critical to the recovery of trauma victims. First responders make the difference between life and death for trauma victims. But what is often not recognized is that when disaster strikes, spiritual caregivers are often among those first on the scene. For these caregivers response should also help propel survivors toward positive transformation. This book focuses on critical responses that are key in the aftermath of natural disaster, community violence, personal injury, and crime. These basics include: the power of presence, safety, assessment and triage, how we help, putting the pieces together, telling the story, hope, and caring in the long haul.
