Archery and bowhunting were a vital part of life in the Americas long before the Europeans arrived, bringing with them new customs of hunting with firearms. For millennia, Native American hunters had stalked their prey with unmatched woodcraft and used their bows with deadly accuracy. The last several decades

have seen an extraordinary growth in bowhunting and archery sports in the United States. New technology and materials have transformed bows well beyond the yew longbows and cloth-yard shafts of the Black Prince's Archers or the stone-tipped arrows and compact bows of Native American hunters. Archery competitions and bowhunting call millions of Americans each year to take to the archery ranges or take up the bow to seek their quarry in fields, prairies, and woodlands, across the continent. Stoeger's, Archer's Bible presents an informative and comprehensive guide to archery equipment, accessories and related gear, showcasing thousands of items ranging from the latest high-tech bows and arrows to tree stands, and accessories.

Deer & Deer Hunting's Guide to Better Bow-Hunting

We hold a great affection for the deep tradition of American storytelling. The ability to spin a yarn that can hold our attention and provide a gentle direction for life is something that has been with us for a long time. "The Celebrated Jumping Frog of Calaveras County" by Mark Twain or Ernest Hemingway's Nick Adams stories hold us with their gentle wit and carry us away for just a little while. In Outdoor Chronicles, Jerry Hamza takes up the gauntlet of the storyteller to take readers away for a little fun. There are already plenty of how-to fishing and outdoor books, and this is not one. Hamza's stories will not make you a better caster or shooter, but they will make you want to spend more time fishing or hunting. This book is a collection of outdoor stories wrapped in the human condition. They were written with an eye toward honesty and cynicism. They will make you laugh out loud, and you will want to carry them with you wherever you go. If this book goes missing, it's a sure thing that, when you do find it, it will be in the possession of a member of your household, regardless of their interest in casting a fly. The stories cover the

gamut from a fishing trip to northern Canada to a little stream that was actually better than remembered, to how the baby boomers almost trampled a sport to death, to a solitary trek along railroad tracks during a cold, dark, and dreary February, and many more. Skyhorse Publishing is proud to publish a broad range of books for hunters and firearms enthusiasts.
