Aptitude tests assess a person's abilities or intelligence, often as part of an IQ test, whilst personality questionnaires help to reveal an individual's characteristics or personality traits. Both are of equal value to employers as they can indicate a candidate's suitability to a particular position. IQ and Personality Tests contains hundreds of practice questions from both these vital areas of assessment. The personality questions look at attitudes and values, often in an entertaining way, whilst the aptitude questions are organised into two IQ tests which assess verbal, numerical, logical and spatial reasoning skills. They are typical of the type and style of question candidates are likely to encounter in actual IQ tests. Answers and a simple analysis of scores are also given, so that readers can assess their performance. Whilst providing entertainment, the questions in IQ and Personality Tests are also a great source of practice material for those faced with the real tests.

This book, now in its Third Edition, is revised as per the feedback received from our valuable students and readers. It is exclusively prepared for the students who wish to appear for campus recruitment screening test and graduate/post graduate students appearing for various competitive examinations in Quantitative Aptitude and Reasoning. The main objective of this volume is to guide the students to solve the problems within the stipulated time and that too with the higher degree of accuracy. Organized in two parts—Quantitative Aptitude (Part I) and Reasoning (Part II)—it helps students to apply basic mathematical and reasoning concepts to a range of quantitative and reasoning problems. The separate sections are devoted to verbal and nonverbal reasoning. It sharpens the ability to apply analytical and logical thinking while gathering and analysing information, designing and testing solutions to problems, and formulating plans. This book is a valuable resource for conducting training programmes/workshops to train students in problem solving techniques in Mathematical Aptitude. It would equally be useful to the candidates appearing for quantitative aptitude and reasoning test conducted in various competitive examinations of graduate level.
