This regulation encompasses garrison, field, and subsistence supply operations. Specifically, this regulation comprises Army Staff and major Army command responsibilities and includes responsibilities for the Installation Management Command and subordinate regions. It also establishes policy for the adoption of an à la carte dining facility and for watercraft to provide subsistence when underway or in dock. Additionally, the regulation identifies DOD 7000.14-R as the source of meal rates for reimbursement purposes; delegates the approval authority for catered meals and host nation meals from Headquarters, Department of the Army to the Army commands; and authorizes the use of the Government purchase card

for subsistence purchases when in the best interest of the Government. This regulation allows prime vendors as the source of garrison supply and pricing and provides garrison menu standards in accordance with The Surgeon General's nutrition standards for feeding military personnel. Also, included is guidance for the implementation of the U.S. Department of Agriculture Food Recovery Program.

It is an age of hurry and worry. Fortunes are quickly made and freely spent. Nearly all busy, hard-worked Americans have an intuitive sense of the need that exists for at least one period of rest and relaxation during each year, and all—or nearly all—are willing to pay liberally, too liberally in fact, for anything that conduces to rest, recreation and sport. I am sorry to say that we mostly get swindled. To the man of millions it makes little difference. I do not write for him, and can do him little good. But there are hundreds of thousands of practical, useful men, many of them far from being rich; mechanics, artists, writers, merchants, clerks, business men—workers, so to speak—who sorely need and well deserve a season of rest and relaxation at least once a year. To these, and for these, I write. (George Washington Sears, Chapter I)

### **Tachechana**

When her best friend Heather calls in the middle of the night, Becca assumes it's the usual drama. Wrong. Heather's parents have been arrested as dissidents - and Becca's mother, the dystopian regime's most infamous torturer, has already executed them for their crimes against the state. To stop Heather from getting herself killed trying to prove her parents' innocence, Becca hunts for proof of their guilt. She doesn't expect to find evidence that leaves her questioning everything she thought she knew about the dissidents and about her mother. When she risks her life to save a dissident, she learns her mother isn't the only one with secrets - and the plot she uncovers will threaten the lives of the people she loves most. For Becca, it's no longer just a choice between risking execution and ignoring the regime's crimes; she has to decide whose life to save and whose to sacrifice. It's easy to be a hero when you can save the world, but what about when all you can do is choose how you live in it? THE TORTURER'S DAUGHTER is a story about

ordinary teenage life amidst the realities of living under an oppressive regime and the extraordinary courage it takes to do what's right in a world gone wrong.

## **Convergence**

The post-9/11 world has witnessed a rebirth of irregular and asymmetrical warfare, which, in turn, has led to an increase in conflicts between conventional armies and non-state armed groups. In their haste to respond to the threat from insurgencies, nations often fail to plan effectively not only for combat operations but also for withdrawal, which is inevitable, win or lose. In order to answer the question of how to withdraw from engagement with an insurgency, Gleis examines how insurgencies are conducted and what, if anything, is unique about an Islamist insurgency. He then proposes ways to combat these groups successfully and to disentangle one's military forces from the war once strategic objectives have been met—or once it is clear that they cannot be. Because this type of warfare is dynamic and ever-changing, this book is not meant to suggest a set of cookie-cutter solutions for how to withdraw from insurgencies. Rather, the author analyzes six counterinsurgency operations that have taken place in the past, with the intention of gleaning from them as many lessons as possible to better prepare for future withdrawals. The literature on how wars end has failed to explore irregular warfare. This much needed reexamination serves as an indispensable starting point.

## **The Dragon's Tale #6**

As a leading Confederate general, Braxton Bragg (1817–1876) earned a reputation for incompetence, for wantonly shooting his own soldiers, and for losing battles. This public image established him not only as a scapegoat for the South's military failures but also as the chief whipping boy of the Confederacy. The strongly negative opinions of Bragg's contemporaries have continued to color assessments of the general's military career and character by generations of historians. Rather than take these assessments at face value, Earl J. Hess's biography offers a much more balanced account of Bragg, the man and the officer. While Hess analyzes Bragg's many campaigns and battles, he also emphasizes how his contemporaries viewed his successes and failures and how these reactions affected Bragg both personally and professionally. The testimony and opinions of other members of the Confederate army—including Bragg's superiors, his fellow generals, and his subordinates—reveal how the general became a symbol for the larger military failures that undid the Confederacy. By connecting the general's personal life to his military career, Hess positions Bragg as a figure saddled with unwarranted infamy and humanizes him as a flawed yet misunderstood figure in Civil War history.

Named more than 200 years ago for heroic Revolutionary War captain John Stokes, Stokes County, North Carolina, is an area rich in history, Southern charm, and natural beauty. Primarily an agricultural community, Stokes County's farming roots date back hundreds of years to the early generations of settlers. The county is beautifully situated on the edge of the Piedmont Foothills, with the breathtaking Sauratown Mountains resting entirely within its border. Stokes County boasts a multi-cultural heritage, consisting of British, German, Scotch Irish, and Welsh nationalities. Though the county is still known for its tobacco farms and picturesque foothills, it is in the midst of change, as a result of the fading tobacco industry and suburban growth in the Piedmont. The citizens of Stokes County have become more and more dedicated to preserving the history of their county, as is evident in this engaging pictorial volume.

" I read on. And then it happens. On page 89. Mary is humiliated, and I know I have to step in. There she is, in an ill-fitting, wine-colored gown that doesn't do anything for her mousy complexion, gathering up her music, when I pass by, and spill my glass of punch right on her dress. I turn, and there is Kevin, dressed in a scarlet coat and all the rest of the uniform of a British Soldier, circa 1811. 'What are you doing here?' I ask. 'Well, this is the part I'm up to in the book.'" The smart middle child in a blue-collar family identifies with Mary, the middle child in Jane Austen's *Pride and Prejudice*. When Alice enters Mary's world and makes changes in both their lives, she learns that first impressions aren't always right.

How America's prisons turned a "brutal and inhumane" practice into standard procedure Originally meant to be brief and exceptional, solitary confinement in U.S. prisons has become long-term and common. Prisoners spend twenty-three hours a day in featureless cells, with no visitors or human contact for years on end, and they are held entirely at administrators' discretion. Keramet Reiter tells the history of one "supermax," California's Pelican Bay State Prison, whose extreme conditions recently sparked a statewide hunger strike by 30,000 prisoners. This book describes how Pelican Bay was created without legislative oversight, in fearful response to 1970s radicals; how easily prisoners slip into solitary; and the mental havoc and social costs of years and decades in isolation. The product of fifteen years of research in and about prisons, this book provides essential background to a subject now drawing national attention.

## **SOCIOLOGY MATTERS**

Whereas Volume I of this series investigates the overall structure of children's picture storybooks at the macro level, this volume, Volume II, investigates the very building blocks of picture storybooks at the micro level: the word, the sentence, the scene and the story. We look at the importance of word choice for giving the story meaning and cohesion. We look at ways to change sentence structure to emphasize the information that is important, and to ensure that sentences flow

easily from one to another. We look at the scene: how to begin it, how to end it, and how to create the Beats of action-reaction that make up the scene. And finally we look at the story: what types of problems must a character solve? When does a story introduce a problem? And once a problem is introduced, how do picture storybooks move from problem to solution? What types of solutions do characters find? Is there any part of a story that occurs after the solution is found? To answer these and other questions is to describe storytelling strategies. We look at enduringly popular children's picture storybooks to see what storytelling strategies they employ.
