### **The Venture of Islam, Volume 1**

The Venture of Islam has been honored as a magisterial work of the mind since its publication in early 1975. In this three-volume study, illustrated with charts and maps, Hodgson traces and interprets the historical development of Islamic civilization from before the birth of Muhammad to the middle of the twentieth century. This work grew out of the famous course on Islamic civilization that Hodgson created and taught for many years at the University of Chicago. "This is a nonpareil work, not only because of its command of its subject but also because it demonstrates how, ideally, history should be written."—The New Yorker Volume 1, The Classical Age of Islam, analyzes the world before Islam, Muhammad's challenge, and the early Muslim state between 625 and 692. Hodgson then discusses the classical civilization of the High Caliphate. The volume also contains a general introduction to the complete work and a foreword by Reuben Smith, who, as Hodgson's colleague and friend, finished the Venture of Islam after the author's death and saw it through to publication.

La 4<sup>e</sup> de couv. indique : "One of the predicaments that readers on the Islamic Capital Market (ICM) face is a lack of comprehensive and quality literature that combines theoretical insight with practical knowledge of the market's operations. The textbook in your hand is a remarkable effort by the International Shari'ah Research Academy for Islamic Finance (ISRA) in collaboration with Securities Commission Malaysia to answer this call. It systematically presents the various aspects of the theory of ICM and its operations by starting with the simplest ideas and moving on to the complex applied issues. The topics covered include : an overview of ICM and its development ; Shari'ah principles, contracts and issues ; regulatory and governance frameworks ; risk management, accounting and taxation issues ; details on different segments of the ICM, including *shukūk*, Shari'ah-compliant stocks, Islamic fund management, Islamic private equity and venture capital, Islamic derivatives and Islamic structured investment products ; and future directions for the ICM. The discussion is not confined to any specific jurisdiction ; rather, it provides a comparison and analysis of the relevant issues across different countries. The presentation is illustrative, aided by numerous charts, figures, tables, diagrams and case studies. It is believed that this new textbook on ICM will go a long way in filling a crucial information gap and quenching the knowledge

needs of academics, practitioners and regulators."
