Hands-on Manual for Cinematographers

PISA 2003 Data Analysis Manual SPSS

Draw, colour and create all your favourite subjects by following these simple instructions and fun step-by-step examples. Hundreds of ideas combined with expert advice on technique and materials ensure professional-looking results.

Pocket Artist

The "Hands On" Manual for Cinematographers contains a wealth of information, theory, diagrams and tables on all aspects of cinematography. Widely recognised as the "Cinematographer's Bible" the book is organised in a unique manner for easy reference on location, and remains an essential component of the cameraman's box. Everything you need to know about cinematography can be found in this book - from camera choice, maintenance and threading diagrams; to electricity on location, equipment checklists, film stock, lenses, light and colour. Of particular use will be the mathematics, formulae, look up tables and step by step examples used for everything from imperial/metric conversions to electricity, exposure, film length, running times, lights and optics. Sections on special effects and utilities are also included as well as a list of useful websites. David Samuelson is a well known and respected cameraman who has been instrumental in fostering award winning new technical innovations. He is a technical consultant, lecturer and author of three other leading publications for Focal Press: The Panaflex User's Manual 2ED, Motion Picture Camera and Lighting Equipment and Motion Picture Camera Techniques.

Notes on the Pentateuch (6 Volumes In Slipcase)

Caillou and his young readers will learn how to recognize, reproduce and name geometrical forms by tracing and coloring squares, rectangles, circles, triangles, diamonds and even pentagons!

Caillou

This publication provides all the information required to understand the PISA 2003 educational performance database and perform analyses in accordance with the complex methodologies used to collect and process the data. It includes worked examples providing full syntax in SPSS®.
