Teachers Organizing for Change

Social Work Macro Practice, 2/e is a comprehensive introduction to social work practice within communities and organizations. Distinguished by its unique practice model that shows students how to use communities and organizations to help clients, the second edition includes a new chapter on Community Theory, the revised NASW Code of Ethics, more information on and examples of diversity, and a new Instructor's Manual.

Human Behavior, Communities, Organizations, and Groups in the Macro Social Environment

This well-known and widely used text is intended to provide entry-level professional social workers with a foundation of knowledge and values needed to practice from a generalist perspective---focusing on culturally competent, ethical, effective, and accountable generalist social work practice skills. This thoroughly revised edition explores the strengths-based problem-solving approach in all phases of the General Method; moving away from a deficit perspective towards an asset/resource perspective.

Evidence Based Macro Practice in Social Work

How can a busy teacher help parents sort through the (often misleading) public conversation on education to understand what truly are sound practices in the classroom? This book, which contains interviews of practicing community organizers, lays out a step-by-step plan for teachers to adapt the tried-and-true strategies of organizers working in public health, environmental advocacy, and social justice. The book offers teachers and teacher educators a practical, hands-on guide to effecting positive change in their own learning communities and in the larger social community. Expressed in lively, down-to-earth language, the book's model shows teachers how to build on skills they already possess--organizing, collaborating, informing, empowering, and sparking interest and action. It features numerous real-life examples, scenarios, and adaptable materials from community activists and teachers, and it shows teachers how to think through their own situations to get started at their own pace and create action plans that, in the long run, save time and energy even as they deliver results. Chapters in the book are: (1) Entering the Conversation; (2) The Quiet Revolution: Teachers Reaching out to Parents; (3) An Introduction to Community Organizing; (4) Teachers Are Organizers: Tacit Knowledge and New Techniques; and (5) Putting It All Together: Becoming a Teacher-Organizer. (Contains 90 references.) (NKA)

Generalist Social Work Practice

A solid, theory-to-practice guide to contemporary mezzo and macro social work Written by a renowned team of scholars, *Social Work Practice with Groups, Communities, and Organizations* focuses on the contemporary theory and practice of social work. Each chapter delves deeply into the key theoretical considerations surrounding a particular practice area, exploring the clinical implications of each. Spanning the full range of both mezzo and macro practice areas, the authors thoroughly look at the assessment of and interventions with group, community, organizational, and institutional settings. The most authoritative book in this field, *Social Work Practice with Groups, Communities, and Organizations* features: A focus on evidence-based approaches to assessment and intervention for each practice area discussed Comprehensive coverage of the most important new and emerging practice technologies in mezzo and macro social work Current and emerging demographic, social, political, and economic trends affecting mezzo and macro practice An array of pedagogical aids, including Key Terms, Review Questions for Critical Thinking, and Online Resources Content closely aligned with social work accreditation standards (EPAS) Providing a solid review of the entire scope of contemporary mezzo and macro social work practice, *Social Work Practice with Groups, Communities, and Organizations* is both an indispensable educational text for students and a valuable working resource for practitioners who work with groups, communities, and organizations of all sizes.

Social Work Macro Practice

As news headlines report staggering numbers of people infected with HIV or AIDS across the globe and as stereotypes of typical AIDS patients become less and less specific to particular sexual orientations and ethnic backgrounds, the AIDS pandemic shows little sign of relenting. AIDS crosses geopolitical and social barriers, and social and behavioral scientists are confronted with the new challenge of developing scientific inquiry and corresponding interventions around participatory, community-based, and community-focused methods. These interventions are increasingly targeting the contextual influences on individual behavior, such as peer groups, social networks and support systems, and community norms. Community-level interventions also draw on local resources and are respectful of sociocultural circumstances and traditions. This book articulates how the social and behavioral sciences can respond to HIV/AIDS. It is written for all who have a stake in AIDS research, stimulating discussion and debate about the natures of community research and intervention broadly across such disciplines as public health, community health education, urban planning, psychology, sociology, anthropology, and philosophy of science. The book proposes alternative perspectives on means of ascertaining knowledge about the HIV/AIDS pandemic and the inclusion of community collaboration in interventions.

Foundations for Community Health Workers

Community economic development (CED) is an increasingly essential factor in the revitalization of low- to moderate-income communities. This cutting-edge text explores the intersection of CED and social work practice, which both focus on the well-being of indigent communities and the empowerment of individuals and the communities in which they live. This unique textbook emphasizes a holistic approach to community building that combines business and real-estate development with a focus on stimulating family self-reliance and community empowerment. The result is an innovative approach to rehabilitating communities in decline while preserving resident demographics. The authors delve deep into the social, political, human, and financial capital involved in effecting change and how race and regional issues can complicate approaches and outcomes. Throughout, they integrate case examples to illustrate their strategies and conclude with a consideration of the critical role social workers can play in developing CED's next phase.

Community Practice

In response to the deaths of inner city youth as a result of violence, drugs, and AIDS, many urban communities paint memorial murals to pay homage to the deceased and to express their grief at the loss. Here, Delgado explores the use of memorial murals for counseling the bereaved friends and family members of urban youth whose lives were cut short. He proposes that employing such approaches can help a community address the problems inherent in their societies while remembering and celebrating the lives of their most vulnerable members.

Delivering Human Services

The Second Edition of The Handbook of Community Practice is expanded and updated with a major global focus and serves as a comprehensive guidebook of community practice grounded in social justice and human rights. It utilizes community and practice theories and encompasses community development, organizing, planning, social change, policy practice, program development, service coordination, organizational cultural competency, and community-based research in relation to global poverty and community empowerment. This is also the first community practice text to provide combined and in-depth treatment of globalization and international development practice issues—including impacts on communities in the United States and on international development work. The Handbook is grounded in participatory and empowerment practices, including social change, social and economic development, feminist practice, community-collaborative, and engagement in diverse communities. It utilizes the social development perspective and employs analyses of persistent poverty, asset development, policy practice, and community research approaches as well as providing strategies for advocacy and social and legislative action. The handbook consists of forty chapters which challenge readers to examine and assess practice, theory, and research methods. As it expands on models and approaches, delineates emerging issues, and connects policy and practice, the book provides vision and strategies for local to global community practice in the coming decades. The handbook will continue to stand as the central text and reference for comprehensive community practice, and will be useful for years to come as it emphasizes direction for positive change, new developments in community approaches, and focuses attention on globalization, human rights, and social justice. It will continue to be used as a core text for multiple courses within programs, will have long term application for students of community practice, and will provide practitioners with new grounding for development, planning, organizing, and empowerment and social change work.

Developing Practice for Public Health and Health Promotion E-Book

Strategies of Community Intervention

A critical account of the politics of aid-giving.

Macro Social Work Practice

The Hidden Epidemic

Presenting state-of-the-art theoretical positions on important development issues such as the inner city, technological innovation and rebuilding economic infrastructure are explored in this volume. The contributors to this volume, drawn from various social science backgrounds, explore a variety of theories and examine them in relation to the practical actions of local economic development.

Death at an Early Age and the Urban Scene

Although a range of program and policy responses to youth gangs exist, most are largely based on suppression, implemented by the police or other criminal justice agencies. Less attention and fewer resources have been directed to prevention and intervention strategies that draw on the participation of community organizations, schools, and social service agencies in the neighborhoods in which gangs operate. Also underemphasized is the importance of integrating such approaches at the local level. In this volume, leading researchers discuss effective intervention among youth gangs, focusing on the ideas behind, approaches to, and evidence about the effectiveness of community-based, youth gang interventions. Treating community as a crucial unit of analysis and action, these essays reorient our understanding of gangs and the measures undertaken to defeat them. They emphasize the importance of community, both as a context that shapes opportunity and as a resource that promotes positive youth engagement. Covering key themes and debates, this book explores the role of social capital and collective efficacy in informing youth gang intervention and evaluation, the importance of focusing on youth development within the context of community opportunities and pressures, and the possibilities of better linking research, policy, and practice when responding to youth gangs, among other critical issues.

Theories of Local Economic Development

Macro Case Studies in Social Work

Annotation. As a result of the ongoing growth in the tourism industry, many destinations around the world are undergoing transformations. New destinations are being 'discovered' in regions previously ignored, as people search for regions that are yet unspoiled by the ravages of mass tourism. At the same time, traditional destinations are experiencing rapid environmental, socio-cultural and economic modifications. These changes have the most effect on the destination community - the location where tourists spend their time and money, and influence development or degradation of the local environment. Tourism in Destination Communities describes both the positive and negative effects of tourism on the destination community. The chapters are divided into three sections which address the relationship between tourism and the destination community, the various impacts of tourism on the destination community and the challenges and opportunities for destination communities. Each chapter contains brief case studies and empirical examples.

Evidence Based Macro Practice

Providing an in-depth introduction to community and organizational practice, this macro practice text gives students a philosophical foundation of core macro practice concepts and skills. This text utilizes the strengths perspective as its unifying theoretical model and offers detailed premises and strategies for working with communities and organizations and for promoting social justice. It is presented in structured fashion that is both theoretical and applied in nature and makes use of summaries, key terms and case examples to help students master the content.

Instructor's Manual to Accompany Community Practice: Theories and Skills for Social Workers, 2nd Ed

Community Organization and Development

This manual is intended to help instructors to make the text a more effective tool for teaching social work skills and theories in community practice. It covers the basics of practice perspectives and specific techniques, mirroring the main text chapter by chapter. Replete with a creative array of exercises, simulations, audiovisual, and other instructional aids, this manual is designed to make the material come alive.

Community Economic Development in Social Work

This comprehensive book, loaded with case studies, offers a solid foundation for assessment of human behavior in macro

settings. Kirst-Ashman offers the reader practical and concrete ways of thinking about how macro systems (or task groups, communities and organizations) affect human behavior, and how these influences have implications for macro social work practice. The theme of empowerment, or building on the strengths of communities, organizations, and groups to promote change, lies at the heart of the profession's goals and central philosophies.

Social Work Practice & People of Color

In this new edition, Doman Lum offers a practical and well-defined model of social work practice with culturally diverse communities. The book defines generalist practice, human and cultural diversity, and multicultural social work and is ideal for all pre- and in-service social workers who deal with culturally diverse clients in family service centers, hospitals, mental health centers, and multicultural service centers. Lum uses a single family case study--the Hernandez family--to provide linkage and integration for the step-by-step description of the process-stage approach. He offers up-to-date coverage on women of color, refugees, and immigrants and includes information on the five-stage practice process model: contact, problem identification, assessment, intervention, and termination.

Reflections on Community Organization

Macro Practice in Social Work for the 21st Century, Second Edition offers a modern approach to building effective career skills in macro practice. Author Steve Burghardt inspires students by tracing the careers of macro-practitioners from grass roots organizers to agency executives. By focusing on how practitioners can make meaningful, strategic choices regardless of their formal roles and responsibilities, this Second Edition takes a refreshing new approach on the key issues of how to respond to diversity and oppression, the use of the internet for organization, the limits of "virtual trust," understanding where "micro" and "macro" meet in practice, and co-leadership development.

Neighborhood Organizations and Community Development

Macro Social Work Practice

Explores working with organizations and communities with a unique macro practice model focusing on making changes within diverse communities and organizations. This book is part of the Connecting Core Competencies Series. This series helps students understand and master CSWE's core competencies with a variety of pedagogy highlighted competency content and critical thinking questions for the competencies throughout. The book focuses on work with organizations and

communities, including planned change approaches and implementation. Teaching & Learning Experience Improve Critical Thinking - The entire text takes students from conceptual understanding to practicalities of implementation. Engage Students - A blend of historical ideologies with contemporary trends allows students to explore the development of social work practices. Explore Current Issues - The new edition includes up-to-date information on values and ethical dilemmas and community and organization analysis. Apply CSWE Core Competencies - Integrates the 2008 CSWE EPAS throughout - highlights competencies and practice behaviors and includes expensive pedagogy. Support Instructors - Instructor's Manual and Test Bank, Computerized Test Bank (MyTest), Blackboard Test Item File, and PowerPoint presentations are included in the outstanding supplements package.

Macro Practice in Social Work for the 21st Century

Tactics and Techniques of Community Intervention

This book traces the development of community development/organization as it evolved separately in Britain and the United States, and how the social and political situations in each country determined the various shapes and directions it took. In presenting a comprehensive history of the subject, Community Organization and Development draws on local and international factors that have helped to shape its application and fortunes across varied settings. Recent economic and social pressures, the changing demographics of developed economies, and the rise of social and cultural diversity all contribute to the need for a comprehensive model that can be deployed to effect the necessary social changes required for sustained change with stability. The history of this intervention technique throws up many examples from which insight can be gained for the present time, and Wales is used as an example of how national policy and local development could be combined for maximum effect. Community development should become reliable and quantifiable, and the comprehensive model developed here demonstrates how and when it should be deployed.

Social Work Macro Practice

This practice guideline seeks to summarize data and specific forms of treatment regarding the care of patients with HIV/AIDS. The purpose of this guideline is to assist the psychiatrist in caring for a patient with HIV/AIDS by reviewing the treatments that patients with HIV/AIDS may need.

Macro-level Interventions and Change-agent Strategies

This book addresses fundamental concepts and dilemmas of community organization practice. It contains reflections and analysis by prominent figures in community organization--scholars, teachers, and activists who have made pioneering and seminal contributions to the field. Fourteen leaders provide reflective narratives and summarize their experience and observations. Their autobiographical accounts of lives and endeavors during the second half of the twentieth century are based on the verities of direct engagement. To broaden and enrich the discussion, professionals from several allied disciplines provide analytic commentaries, reflecting on the reflections.

Practice Guideline for the Treatment of Patients with HIV/AIDS

This unique self-instructional text involves students in the learning process and helps them develop and apply the skills needed for working with people. It presents comprehensive coverage of major practice areas brokering, consumer advocacy, mobilizing, interviewing, case management, relationship building, and assessment. Encouraging students to view people in a positive way with the ability to change, the fourth edition contains a new chapter on managing the transition to new service delivery systems, updated material on clinical methods, revised material on policy practice, and updated cases that reflect a stronger emphasis on diversity.

Strategies of Community Organization

A person doesn't have to be a consensus organizer to think like one. *Consensus Organizing: A Community Development Workbook—A Comprehensive Guide to Designing, Implementing, and Evaluating Community Change Initiatives* helps students and practitioners begin to think like consensus organizers and incorporate this way of strategic thinking into their lives and their work. Through a wide range of exercises, role-play activities, case scenarios, and discussion questions, this workbook presents the conceptual framework for consensus organizing and provides a practical and experiential approach to understanding and applying consensus organizing to address a range of issues. This workbook is designed to be used by itself or along with Mike Eichler's text *Consensus Organizing: Building Communities of Mutual Self Interest* (SAGE, 2007). Accompanying Website Instructors and students have access to the many activities and cases on the accompanying website at www.sagepub.com/ohmerworkbookstudy.

Youth Gangs and Community Intervention

The Handbook of Community Practice

Training, credentialing and employment opportunities for Community Health Workers (CHW) are expanding across the nation. Foundations for Community Health Workers, 2nd Edition provides a practical and comprehensive introduction to essential skills for CHWs, with an emphasis on social justice, cultural humility, and client-centered practice. Real-life case studies and quotes from working CHWs illustrate challenges and successes on the job. For additional details, please visit: <http://wileyactual.com/bertholdshowcase/>

Social Work Practice with Groups, Communities, and Organizations

Empower your students to become advocates for change. Macro Social Work Practice: Advocacy in Action shows readers studying in macro social work practice how to enact change at the organizational, community, societal, and global levels. An emphasis is placed on engaging in macro practice using the tenets of the award-winning author team's Advocacy Policy and Practice Model (APPM) that highlight the inclusion of economic and social justice, supportive environment, human needs and rights, and political access. Beginning with a history of macro practice and continuing with contemporary issues facing social workers, this new text helps readers learn how to enact advocacy, informed by key orientations and perspectives and grounded in timely and relevant examples and causes.

Community Interventions and AIDS

This title is now out of print. A new edition with e-book is available under ISBN 9780702044540. This package provides you with the book plus the eBook - giving you the printed book and also giving access to the complete book content electronically. Evolve eBooks allows you to quickly search the entire book, make notes, add highlights, and study more efficiently. Buying other Evolve eBooks titles makes your learning experience even better: all of the eBooks will work together on your electronic 'bookshelf', so that you can search across your entire library of Nursing eBooks. Developing Practice for Public Health and Health Promotion is the second title in the 'Public Health and Health Promotion Practice' series, expanding on the best-selling introductory textbook, Foundations for Health Promotion. Developing Practice is an essential text for the many different practitioners, professionals and specialists who contribute to public health and health promotion, enabling them to develop their knowledge, skills and confidence. Fully updated to reflect the many changes in health promotion theory, practice and policy New chapter on empowerment as a key health promotion strategy Case studies, activities and discussion points encourage interaction and reflection, and stimulate learning Unique, user-friendly approach makes learning easy Examines the forces that drive practice Focuses on the core strategies of: Tackling health inequalities User and public participation and involvement Working in partnerships Empowerment. Identifies current public health priorities and how to address these in practice. Fully updated to reflect the many changes in health promotion theory, practice and policy New chapter on empowerment as a key health promotion strategy

The 26th Annual Conference

For almost two decades, Community Practice has been a definitive text for social workers, community practitioners, and students eager to help individuals contribute to and use community resources or work to change oppressive community structures. In this third edition, a wealth of new charts and cases spotlight the linkages between theoretical orientations and practical skills, with an enhanced emphasis on the inherently political nature of social work and community practice. Boxes, examples, and exercises illustrate the range of skills and strategies available to savvy community practitioners in the 21st century, including networking, marketing and staging, political advocacy, and leveraging information and communication technologies. Other features include: - New material on community practice ethics, critical practice skills, community assessment and assets inventory and mapping, social problem analysis, and applying community practice skills to casework practice - Consideration of post-9/11 community challenges - Discussion on the changing ethnic composition of America and what this means for practitioners - An exploration of a vastly changed political landscape following the election of President Obama, the Great Recession, the rise of the Tea Party, and the increasing political and corporate use of pseudo-grassroots endeavors - A completely revamped instructor's manual available online at www.oup.com/us/communitypractice This fully revised classic text provides a comprehensive and integrated overview of the community theory and skills fundamental to all areas of social work practice. Broad in scope and intensive in analysis, it is suitable for undergraduate as well as graduate study. Community Practice offers students and practitioners the tools necessary to promote the welfare of individuals and communities by tapping into the ecological foundations of community and social work practice.

People, Peace and Power

Community Practice Skills

The Handbook of Social Work Direct Practice discusses the context of practice, its theories and frameworks, approaches to change fields of practice, research and empirical issues, and professional issues. Written by a group of contributors, who are leading expert in their fields, this volume will service a definitive reference for social work students and professionals.

The Handbook of Social Work Direct Practice

Consensus Organizing: A Community Development Workbook

Dorothy N. Gamble and Marie Weil differentiate among a range of intervention methods to provide a comprehensive and effective guide to working with communities. Presenting eight distinct models grounded in current practice and targeted toward specific goals, Gamble and Weil take an unusually inclusive step, combining their own extensive experience with numerous case and practice examples from talented practitioners in international and domestic settings. The authors open with a discussion of the theories for community work and the values of social justice and human rights, concerns that have guided the work of activists from Jane Addams and Martin Luther King Jr. to Cesar Chavez, Wangari Maathai, and Vandana Shiva. They survey the concepts, knowledge, and perspectives influencing community practice and evaluation strategies. Descriptions of eight practice models follow, incorporating real-life case examples from many parts of the world and demonstrating multiple applications for each model as well as the primary roles, competencies, and skills used by the practitioner. Complexities and variations encourage readers to determine, through comparative analysis, which model at which time best fits the goals of a community group or organization, given the context, culture, social, economic, and environmental issues and opportunities for change. An accompanying workbook stressing empowerment strategies and skills development is also available from Columbia University Press.
