Fourteen centuries of Islamic thought have produced a legacy of interpretive readings of the Qu'ran written almost entirely by men. Now, with *Qu'ran and Woman*, Amina Wadud provides a first interpretive reading by a woman, a reading which validates the female voice in the Qu'ran and brings it out of the shadows. Muslim progressives have long argued that it is not the religion but patriarchal interpretation and implementation of the Qu'ran that have kept women oppressed. For many, the way to reform is the reexamination and reinterpretation of religious texts. *Qu'ran and Woman* contributes a gender inclusive reading to one of the most fundamental disciplines in Islamic thought, Qu'ranic exegesis. Wadud breaks down specific texts and key words which have been used to limit women's public and

private role, even to justify violence toward Muslim women, revealing that their original meaning and context defy such interpretations. What her analysis clarifies is the lack of gender bias, precedence, or prejudice in the essential language of the Qur'an. Despite much Qu'ranic evidence about the significance of women, gender reform in Muslim society has been stubbornly resisted. Wadud's reading of the Qu'ran confirms women's equality and constitutes legitimate grounds for contesting the unequal treatment that women have experienced historically and continue to experience legally in Muslim communities. The Qu'ran does not prescribe one timeless and unchanging social structure for men and women, Wadud argues lucidly, affirming that the Qu'ran holds greater possibilities for guiding human society to a more fulfilling and productive mutual collaboration between men and women than as yet attained by Muslims or non-Muslims.

The fascinating and informative Dictionary of First Names covers over 6,000 names in common use in English, including the very newest names as well as traditional names. From Alice to Zanna and Adam to Zola this book will answer all your questions: it will tell you the age, origin, and meaning of the name, as well as how it has fared in terms of popularity, and who the famous fictional or historical bearers for the name have been. It covers alternative spellings, short forms and pet forms, and masculine and feminine forms, as well as help with pronunciation. The book includes extensive appendices covering names from languages including Scottish, Irish, French, German, Italian, Arabic, and Chinese names. Tables of the most popular names by year and by region are also included. This is the most comprehensive paperback first names dictionary available. From the traditional to the rare and unconventional, this book will tell you everything you need to know about names.

This book is a meditation on and an attempt to understand suicidal violence in the immediate context of its most recent political surge: the decade between 2001 and 2011, from the suicidal mission of Muhammad Atta and his band in the United States to the suicide of Mohamed Bouazizi in 2010 in Tunisia. After the former a devastating military strike and occupation of two Muslim countries commenced, and after the latter a massive transnational democratic uprising ensued. Suicidal violence is neither specific to Islam nor peculiar to our time. It has been manifested in practically all cultures and religions and throughout human history. But the

suicidal violence we witness today is of an entirely different disposition because the bodies (both of the assailant and of the assailed) on which it is perpetrated are no longer the human body of our Enlightenment assumption. What we are witnessing is in fact the contour of a posthuman body. The posthuman body, as Dabashi here proposes, is the body of a contingent and contextual being, and as such an object of disposable knowledge; while the human body that it has superseded was corporeally integral, autonomous, rational, indispensable, and above all the site of a knowing subject.

This book presents the work and ideas of the Syrian writer Muhammad Shahrur to the English-speaking world. Shahrur is at the moment the most innovative intellectual thinker in the Arab Middle East. Often described as the a ~Martin Luther of Islam,a (TM) he offers a liberal, progressive reading of Islam that aims to counter the influences of religious fundamentalism and radical politics. Shahrura (TM)s innovative interpretation of the Qura (TM)an offers groundbreaking new ideas, based on his conviction that centuries of historical Islam, including scholarship in the traditional Islamic religious sciences, have obscured or even obliterated the Qura (TM)ana (TM)s progressive and revolutionary message. That message is one that has endured through each period of human history in which Islam has existed, encouraging Muslims to apply the most contemporary perspective available to interpret the Qura (TM)ana (TM)s meaning.

An anonymous book appeared in Venice in 1547 titled L'Alcorano di Macometto,

and, according to the title page, it contained "the doctrine, life, customs, and laws [of Mohammed] . . . newly translated from Arabic into the Italian language." Were this true, L'Alcorano di Macometto would have been the first printed direct translation of the Qur'an in a European vernacular language. The truth, however, was otherwise. As soon became clear, the Qur'anic sections of the book—about half the volume—were in fact translations of a twelfth-century Latin translation that had appeared in print in Basel in 1543. The other half included commentary that balanced anti-Islamic rhetoric with new interpretations of Muhammad's life and political role in pre-Islamic Arabia. Despite having been discredited almost immediately, the Alcorano was affordable, accessible, and widely distributed. In *The Venetian Qur'an*, Pier Mattia Tommasino uncovers the volume's mysterious origins, its previously unidentified author, and its broad, lasting influence. L'Alcorano di Macometto, Tommasino argues, served a dual purpose: it was a book for European refugees looking to relocate in the Ottoman Empire, as well as a general Renaissance reader's guide to Islamic history and stories. The book's translation and commentary were prepared by an unknown young scholar, Giovanni Battista Castrodardo, a complex and intellectually accomplished man, whose commentary in L'Alcorano di Macometto bridges Muhammad's biography and the text of the Qur'an with Machiavelli's *The Prince* and Dante's *Divine Comedy*. In the years following the publication of L'Alcorano di Macometto, the book was dismissed by Arabists and banned by the Catholic Church. It was also, however, translated into German, Hebrew, and Spanish and read by an extended

lineage of missionaries, rabbis, renegades, and iconoclasts, including such figures as the miller Menocchio, Joseph Justus Scaliger, and Montesquieu. Through meticulous research and literary analysis, The Venetian Qur'an reveals the history and legacy of a fascinating historical and scholarly document.

Perhaps the best Quran English translation. It is clear, easy to read, and very faithful to the Arabic original. It closely follows the Arabic text, and often reminds the reader of the Arabic original. It uses today's English language, and today's English vocabulary, thus it is easy to read and understand. The flow is smooth, the sentence structure is simple, the meaning is clear. This Quran translation has no interpretations, no footnotes, and no explanations. It is a pure translation of the Quran, from Arabic to English, and it does not try to emphasize any school of thought. The text purely and accurately translates the Holy Quran, from Arabic, into contemporary English. It was translated by a Muslim, who saw firsthand the miracles inside the Quran. His native language is Arabic; his everyday language is American English. For 15 years, he studied the Quran. For many years, he

translated speech between his mother and his wife. For a living, he develops quality software. This Quran translation is available in two editions. This edition (B) uses the word "God" to refer to the Creator. Edition (A) uses the word "Allah".

Quran Sura 81. The Rolling. at-Takwir. In the name of God, the Gracious, the Merciful. 1. When the sun is rolled up. 2. When the stars are dimmed. 3. When the mountains are set in motion. 4. When the relationships are suspended. 5. When the beasts are gathered. 6. When the oceans are set aflame. 7. When the souls are paired. 8. When the girl, buried alive, is asked: 9. For what crime was she killed? 10. When the records are made public. 11. When the sky is peeled away. 12. When the Fire is set ablaze. 13. When Paradise is brought near. 14. Each soul will know what it has readied. 15. I swear by the galaxies. 16. Precisely running their courses. 17. And by the night as it recedes. 18. And by the morn as it breathes. 19. This is the speech of a noble messenger. 20. Endowed with power, eminent with the Lord of the Throne. 21. Obeyed and honest. 22. Your friend is not possessed. 23. He saw him on the luminous horizon. 24. And He does not withhold knowledge of the Unseen. 25. And it is not the word of an accursed devil. 26. So where are you heading? 27. It is only a Reminder to all mankind. 28. To whoever of you wills to go straight. 29. But you cannot will, unless God wills-The Lord of the Worlds. The Quran is the last Book from the Creator. It contains guidance, mercy, and healing. The Quran is a blessing, within reach.

The untold story of how the Arabic Qur'an became the English Koran For millions of Muslims, the Qur'an is sacred only in Arabic, the original Arabic in which it was revealed to the Prophet Muhammad in the seventh century. To many Arab and non-Arab believers alike, the book literally defies translation, yet English translations are growing in both number and importance. Bruce Lawrence tells the remarkable story of the centuries-long quest to translate the Qur'an's lyrical verses—and to make English itself an Islamic language. A translation saga like no other, this panoramic book looks at cyber Korans, versions by feminist translators, and even a graphic Qur'an by the acclaimed visual artist Sandow Birk.

### **A Dictionary of First Names**

While there is little evidence of formal rhetorical instruction in Anglo-Saxon England, traditional Old English poetry clearly shows the influence of Latin rhetoric. Verse and Virtuosity demonstrates how Old English poets imitated and adapted the methods of Latin literature, and, in particular, the works of the Christian Latin authors they had studied at school. It is the first full-length study to look specifically at what Old English poets working in a Latinate milieu attempted to do with the schemes and figures they found in their sources. Janie Steen argues that, far from sterile imitation, the inventiveness of Old English poets coupled with the constraints of vernacular verse produced a vital and markedly different kind of

poetry. Highlighting a selection of Old English poetic translations of Latin texts, she considers how the translators responded to the challenge of adaptation, and shows how the most accomplished, such as Cynewulf, absorb Latin rhetoric into their own style and blend the two traditions into verse of great virtuosity. With its wide-ranging discussion of texts and rhetorical figures, this book can serve as an introduction to Old English poetic composition and style. *Verse and Virtuosity*, will be of considerable interest to Anglo-Saxonists, linguists, and those studying rhetorical traditions.

This report examines the links between inequality and other major global trends (or megatrends), with a focus on technological change, climate change, urbanization and international migration. The analysis pays particular attention to poverty and labour market trends, as they mediate the distributional impacts of the major trends selected. It also provides policy recommendations to manage these megatrends in an equitable manner and considers the policy implications, so as to reduce inequalities and support their implementation.

"Approaching the Qur'an captures the complexity, power, and poetry of the early suras, or chapters, of the Qur'an, the sacred scripture of Islam. Michael Sells presents brilliant translations of the short, hymnic suras associated with the first revelations to the Prophet Muhammad. In the second edition, Sells offers a new translation and commentary on the Sura of the Compassionate (al-Rahmān), which holds a special place within Islamic devotion and literature. Additionally, a new preface addresses the ongoing controversy over teaching about Islam and the Qur'an in American universities."--Publisher.
