School counseling is a rather specialized field, yet students entering it do not have a single, comprehensive resource to guide them through the process. This text covers all aspects of the practicum and internship experience, from the initial contact with your supervisor to detailed descriptions of each of the different roles you will have, and will help you gain an understanding of the school culture and how to begin thinking about and developing your own philosophy of school counseling. Specific topics covered include popular counseling theories used by school counselors; working with special populations of students; application of the ASCA ethical standards; the administration of day-to-day tasks, such as arranging an office space and managing your time; and elements of the guidance curriculum, including individual student planning, responsive services, and systemic support. Each chapter contains activities, case studies, hypothetical situations, and worksheets designed to facilitate your understanding of and role in the profession. All material presented is consistent with both the CACREP accreditation standards and the American School Counseling Association's National Model (R).

The Review

Mary Clare is on the lookout for a miracle. Mary Clare O'Brian is determined to be a saint when she grows up (the halo will help cover her frizzy hair). But lately none of her prayers seem to be working the way she wants them to: her mother is losing her faith, her parents can't pay all the bills, and her brother receives a draft notice for the war in Vietnam. Mary Clare has a plan to help, but it just doesn't seem to be working. How is she supposed to become a saint when her world is falling apart? Dear Mother Superior, My name is Mary Clare O'Brian and I am in sixth grade. I would like to join the convent right after 8th grade before I start liking boys too much. I'm already having problems with boys liking me. Gregory in my class throws spitballs at me and told my best friend he likes me. I haven't told him that I want to be God's bride yet. Do you think I should?

Establishing the Value of Training helps trainers and managers meet these challenges by providing practical guidance, job aids, and worksheets for calculating training costs and returns. It provides proven strategies for combining traditional return-on-investment methodologies with assessments of other less tangible benefits of training.
