Countdown to Financial Freedom

The International Bestseller "This book blew my mind. More importantly, it made financial independence seem achievable. I read Financial Freedom three times, cover-to-cover." --Lifemaker Money is unlimited. Time is not. Become financially independent as fast as possible. In 2010, 24-year old Grant Sabatier woke up to find he had \$2.26 in his bank account. Five years later, he had a net worth of over \$1.25 million, and CNBC began calling him "the Millennial Millionaire." By age 30,

he had reached financial independence. Along the way he uncovered that most of the accepted wisdom about money, work, and retirement is either incorrect, incomplete, or so old-school it's obsolete. Financial Freedom is a step-by-step path to make more money in less time, so you have more time for the things you love. It challenges the accepted narrative of spending decades working a traditional 9 to 5 job, pinching pennies, and finally earning the right to retirement at age 65, and instead offers readers an alternative: forget everything you've ever learned about money so that you can actually live the life you want. Sabatier offers surprising, counter-intuitive advice on topics such as how to: * Create profitable side hustles that you can turn into passive income streams or full-time businesses * Save money without giving up what makes you happy * Negotiate more out of your employer than you thought possible * Travel the world for less * Live for free--or better yet, make money on your living situation * Create a simple, money-making portfolio that only needs minor adjustments * Think creatively--there are so many ways to make money, but we don't see them. But most importantly, Sabatier highlights that, while one's ability to make money is limitless, one's time is not. There's also a limit to how much you can save, but not to how much money you can make. No one should spend precious years working at a job they dislike or worrying about how to make ends meet. Perhaps the biggest surprise: You need less money to "retire" at age 30 than you do at age 65. Financial Freedom is not merely a laundry list of advice to follow to get rich quick--it's a practical roadmap to living life on one's own terms, as soon as possible.

I Am on the Path to Financial Freedom

As a young and naïve pastor, Dan Willis maxed out twenty-three credit cards and ruined his credit to support his ministry. It wasn't until massive debt caused the cards to stop working that he realized that God never asked him to do this. Through his candor and honesty, Dan reveals the five steps God showed him to get out of debt: stop spending, create a budget, develop a debt payoff plan, begin saving, and repair bad credit. This led him to becoming a thriving and financially-free ministry. Now, Dan is on a mission to teach this to the world. Using biblical principles, but not relying on miracles or "name-it-and-claim-it" theology, Dan provides easy-to-follow, practical steps that can be used by anyone to escape financial bondage. Finally, he encourages readers to use their financial freedom to help others and advance God's kingdom, and to use their newfound fiscal wisdom to store up wealth. Without shaming those who struggle financially, 5 Simple Steps to Financial Freedom is the perfect combination of spiritual wisdom and practical advice for those who desperately need it.

Now a #1 Amazon Bestseller in Multiple Categories! Download It Now While On a Limited-Time Discount! This book is radically different. If you're fed up with your job and want to finally know the REAL, raw truth to attain financial freedom without the fluff, learn the "in-the-trenches" secrets from an underground "internet entrepreneur" who works only 3 hours a week who have attained freedom through passive income. Don't get me wrong. 4 Hour Work Week is a fantastic book. It has changed the paradigm for hundreds of thousands of people, including mine. But now that I have finally attained it, looking back, I noticed there was quite a bit of "gap" between ground level (where most likely you are at) and the "final prize" ("4 Hour Work Week"). So it is my hope this book can "work together" with Tim Ferriss' groundbreaking book and further add practical, immediately applicable, ground-level strategies and tactics that will become the "Stairway to Heaven" to finally help you attain the "4 Hour Work Week." I will spill all the beans about the "jealously guarded truth" of top internet marketers no matter how ugly it may

sound. I will tell you what you need to hear, not what you want to hear because the last thing you need is another sugarcoated book written by an "armchair marketer" who have watched the battle far away from "the trenches" and shares information that is grossly removed from the truth. This book is going to be mainly for 4 types of people: 1. Someone who wants to transition out of their job and have a full-time online business that will provide them with location and time freedom 2. Someone who may want to keep their job, but have an extra side income stream without too much work and time involvement 3. Someone who is self-employed and want to get out of the daily grind and discover an easier (and smarter) way to make money 4. Someone who is an investor and want to create another source of profitable income stream.

The Art of Getting Rich

Discover the (surprising) secret to lifelong financial freedom with real estate investing. Real estate has always been a powerful tool for investing, and many people believe that a single-family home investment strategy will help them achieve their goals. Real estate investing expert and author Michael Blank learned that once investors did their first deal, the curious "Law of the First Deal" led to the second and third deals in rapid succession. Most were able to quit their jobs within 3-5 years of getting started. Of course, when most people hear "apartment buildings" they immediately assume they need years of investing experience and money saved up to be able get into the game. This simply isn't true. Michael has compiled the results of his research into his new book, Financial Freedom with Real Estate Investing: The Blueprint to Quitting Your Job with Real Estate - Even without Experience or Cash. He's outlined the "Financial Freedom Blueprint" that guides you through your first multifamily deal, even if you have no prior experience or your own cash.

Bill and Mary Toohey are average middle income people from a small Iowa town. Bill has been employed for 23 years as a Vocational Rehabilitation Counselor and Mary has worked for 20 years as an Office Manager for a small psychological firm. They started saving and investing in 1991 when their net worth was \$63,000. Eight years later their net worth was \$467,000. In other words, their assets increased by an average of more than \$50,000 per year during that period while their income (not counting dividends and capital gains) averaged about \$65,000 per year. But it wasn't always easy. They have three children, Colleen (24), Tim (22), and Meghann (14). Tim has been severely disabled since birth and despite the challenges of helping Tim cope with his chronic illnesses, the Toohey family has been able to achieve financial freedom on a modest income. They were able to build a sizable nest egg in eight years while encountering some of life's biggest expenses during the period. They helped to pay for their daughter's college education and wedding, paid cash for a new car, and made several expensive home improvements. Despite those major expenses the Tooheys still managed to save 46% of their gross income and were listed among the "Best Personal Finance Managers in America" in the December 1994 issues of Money magazine. The Tooheys' story, in an article written by Bill, appeared in the April 1997 issue of Money magazine. Mary co-authored an article published in the February 1998 issue of McCall's magazine. In May, 1997 Bill was invited to speak at Money magazine's Elgin Project seminar series. Money magazine "adopted" Elgin, Illinois and brought in speakers with expertise in personal finance. Former President Bush kicked off the event. How did they do it? How do they think? How do they live? Is it possible to save so much and still have a decent life? Can my family do this? Get the answers to all these questions and more in a book written specifically for families with children who don't earn big bucks.

Book Praise & Reviews ""As a how-to guide, this book contains everything you may need to know to turn your passions into profits."" Bill Bartmann (Billionaire entrepreneur, author, speaker, educator) Read & Give Program A portion of the sale of this book is donated to charity. Book Description Are you unhappy in your job? Are you tired of living paycheck to paycheck and feel like you just don't have enough money, skills, or education to turn your life around? Even if you're not sure you know what it is you like to do, you can change your life and get rich doing it, says entrepreneur Duane Harden in his wise and entertaining new book, *5 Easy Steps to Financial Freedom: Do What You Love & Get Rich Doing It*. Turning your passion into a profitable business is easy, fast, and fun, says Harden, and you can become rich in just five easy steps. First, start by saying yes to financial freedom. Attitude is everything and as the Law of Attraction states, what you put out into the universe is often what you attract. If you imagine yourself financially secure and happy, you will be. Imagining a new life for yourself is the inspiration you need

to go out and do the concrete things to turn your dreams into a reality. Conversationally written and filled with humorous drawings, helpful worksheets, and key tips, 5 Easy Steps to Financial Freedom also offers a 90-day action plan that includes blueprints for success that Harden himself used to build his wealth. His own journey included the purchase of numerous real-estate properties, opening a restaurant, starting a music company, and much more. Harden gives you "Life Assignments" that get you thinking and acting differently. Beware of what he calls the "crabs in a pot" mentality, where everyone is trying to pull everyone else down in order to struggle to the top. Instead, he advises, think positively. Stay away from the naysayers and feed your dream. Soon you will realize that your inner life is reflected in your outer life. Harden helps you to discover the real you, what you want, and how much money you want to be there for you now and in the future. He explains how the real difference between rich people and poor people is fear and an unwillingness to keep an open mind to new opportunities. Rich people are not afraid to take risks, and well-planned risks almost always pay off. Success, he reminds you, is your birthright and it's your job to claim it. Review your credit and your financial house. Clean up the clutter in your life, whether it is the wrong way of thinking or a messy desk. Discover what really makes you tick because when you love what you do it's never really work, and when passion is present the money will miraculously follow. Keep daily positive reminders taped where you can see them, or even have a vision board filled with photographs of where you want to be in life. Write your resignation letter to your boss, but don't send it yet. Just the act of writing it puts you in the right frame of mind for moving on to something much better. "You are what you think and will become what you dream," says Harden. You'll learn to be a PIG (passive income generator) Farmer, which requires little work but makes you tons of money. 5 Easy Steps to Financial Freedom shows you how go from rags to riches and is understandable and easy to read. This invaluable guide will change your life!
