## **Global Health Law**

The deployment of a large number of soldiers, police officers and civilian personnel inevitably has various effects on the host society and economy, not all of which are in keeping with the peacekeeping mandate and intent or are easily discernible prior to the intervention. This book is one of the first attempts to improve our understanding of unintended consequences of peacekeeping operations, by bringing together field experiences and academic analysis. The aim of the book is not to discredit peace operations but rather to improve the way in which such operations are planned and managed.

### **Wild Swans**

This short-read compares the actual and theoretical similarities between the "Invisible Empire" known as the Women's Ku Klux Klan, and modern gynocentrism or feminism. The KKK originated in the Southern United States in 1865, in part, to perpetuate the "chivalry" of the South in favor of women. The gynocentric chauvinism of the Klan, historically, has been identical to the gynocentric exclusivity of modern feminism. The book shows how the women's suffrage movement in the U.S. was really a KKK motivated campaign to dilute the voting power of African-American men conveyed to those men under the Fifteenth Amendment. The book describes early American feminists who promoted racism in order to achieve gains, for women, at the expense of African-Americans struggling after the Civil War. The book is well-documented, with endnotes, with citations to notable works by both men and women authors.

Most young people considering studying law, or pursuing a legal career, have very little idea of what learning law involves and how universities teach law to their students. The new edition of this book, which proved very popular when first published in 2007, provides a 'taster' for the study of law; a short, accessible presentation of law as an academic subject, designed to help 17- and 18-year old students and others decide whether law is the right choice for them as a university subject, or, if they have already made the choice, what to expect when they start their law degree. It helps answer the question 'what should I study at university?' and counters the perception that law is a dry, dull subject. What About Law? shows how the study of law can be fun, intellectually stimulating, challenging and of direct relevance to students. Using a case study approach, the book introduces prospective law students to the legal system, as well as to legal reasoning, critical thinking and argument. This is a book that should be in the library of every school with a sixth form, every college and every university, and it is one that any student about to embark on the study of law should read before they commence their legal studies. All of the authors have long experience in teaching law at Cambridge and elsewhere and all have also been involved, at various times, in advising prospective law students at open days and admissions conferences. Listed as one of the 'Six of the best law books' that a future law student should read by the Guardian Law Online, 8th August 2012. See the detailed website for this book: <http://www.whataboutlaw.co.uk>

Some 300 articles, letters, and committee reports regarding the founding of Loma Linda as a training center for health workers is included in this unabridged edition of the original compilation by Elder John A. Burden. He originally named it “LOMA LINDA MESSAGES Divine Instruction the ‘Blue Print’ Thru [sic] the Inspired Pen of Ellen G. White.” The original, and this present edition, consists of about two-thirds (by word count), of articles, sermons, and letters by E. G. White. But, unlike the Ellen G. White CD-ROM, and some printed editions, the original and this present edition contain another one-third by word count of letters by some twenty different authors and various committee discussions and reports. This compilation by Elder Burden is an interesting record of the counsels given and of the struggles that leaders had, on all levels of the organization, as to how to implement the instructions sent them by God. This is a thrilling saga of faith challenged and faith rewarded.

## **What About Law?**

“Law school applicants should consider this a guide to producing a competitive, superior essay. . . . These successful examples speak louder than any written how-to instructions could.” -The Book Watch Each year, thousands of people apply to the most prestigious law schools across the country, competing for an ever-smaller number of spaces. But each applicant gets one chance to distinguish himself or herself from the pack: the law school application essay. In the essay, you can spotlight the qualities you possess that transcripts and LSAT scores cannot reveal. *Essays That Worked for Law Schools* shows that winning essays come in a variety of styles and voices. One student writes about running a day-care center. Another tells a harrowing story about driving a cab in New York City. And a third gives an

This book presents a unified set of arguments about the nature of jurisprudence and its relation to the jurist's role. It explores contemporary challenges that create a need for social scientific perspectives in jurisprudence, and it shows how sociological resources can and should be used in considering juristic issues. Its overall aim is to redefine the concept of sociological jurisprudence and outline a new agenda for this. Supporting this agenda, the book elaborates a distinctive juristic perspective that recognises law's diversity of cultural meanings, its extending transnational reach, its responsibilities to reflect popular aspirations for justice and security, and its integrative tasks as a general resource of regulation for society as a whole and for the individuals who interact under law's protection. Drawing on and extending the author's previous work, the book will be essential reading for students, researchers and academics working in jurisprudence, law and society, socio-legal studies, sociology of law, and comparative legal studies.

## **Personal Statements**

A New York Times best-selling call to arms from Nobel Prize-winning economist Paul Krugman. The Great Recession is more than four years old—and counting. Yet, as Paul Krugman points out in this powerful volley, "Nations rich in resources, talent, and knowledge—all the ingredients for prosperity and a decent standard of living for all—remain in a state of intense pain." How bad have things gotten? How did we get stuck in what now can only be called a depression? And above all, how do we free ourselves? Krugman pursues these questions with his characteristic lucidity and insight. He has a powerful message for anyone who has suffered over these past four years—a quick, strong recovery is just one step away, if our leaders can find the "intellectual clarity and political will" to end this depression now.

and tools for thinking about legal problems on the other. Although the tools are far more interesting and useful than the rules, they tend to be neglected in favor of other aspects of the curriculum. In *The Legal Analyst*, Ward Farnsworth brings together in one place all of the most powerful of those tools for thinking about law. From classic ideas in game theory such as the “Prisoner’s Dilemma” and the “Stag Hunt” to psychological principles such as hindsight bias and framing effects, from ideas in jurisprudence such as the slippery slope to more than two dozen other such principles, Farnsworth’s guide leads readers through the fascinating world of legal thought. Each chapter introduces a single tool and shows how it can be used to solve different types of problems. The explanations are written in clear, lively language and illustrated with a wide range of examples. *The Legal Analyst* is an indispensable user’s manual for law students, experienced practitioners seeking a one-stop guide to legal principles, or anyone else with an interest in the law.

## **End This Depression Now!**

Acute, questioning, humane and passionately concerned for justice, Helena Kennedy is one of the most powerful voices in legal circles in Britain today. Here she roundly challenges the record of modern governments over the fundamental values of equality, fairness and respect for human dignity. She argues that in the last twenty years we have seen a steady erosion of civil liberties, culminating today in extraordinary legislation, which undermines long established freedoms. Are these moves a crude political response to demands for law and order? Or is the relationship between citizens and the state being covertly reframed and redefined?
