A behind-the-scenes look at Lexus's surprising twenty-year success story—in a revised new edition In the 1980s, German brands BMW and Mercedes-Benz dominated the luxury car market and had little reason to fear competition from Japan. But in 1989, Toyota entered the market with the Lexus LS 400, a car that could compete with the Germans in every category but price—it was US\$30,000 cheaper. Within two years, Lexus had overtaken Mercedes-Benz in the United States and made a stunning success of Toyota's brave foray into the global luxury market. Lexus: The Relentless Pursuit reveals why Toyota decided to take on the German automakers and how the new brand won praise and success for its unparalleled quality, unforgettable advertising, and unprecedented customer service. From the first boardroom planning session to Lexus's entry into the mega-luxury supercar market, this is the complete and compelling story of one of the world's most admired brands. Includes a new Foreword by legendary designer Erwin Lui, an Afterword with updates since the first edition, and a new Coda by leading Japanese automotive journalist Hisao Inoue Covers the racetrack triumph—and tragedy—behind the new US\$375,000 Lexus LFA supercar Offers important business lessons for brand managers and executives For car enthusiasts, business leaders, and anyone interested in branding and marketing, Lexus: The Relentless Pursuit offers an amazing story of excellence and innovation in the automotive industry.

As analysis of the revenue available to Qing garrisons in Xinjiang reveals, imperial control over the region in the eighteenth and nineteenth centuries depended upon sizeable yearly subsidies from China. In an effort to satisfy criticism of their expansion into Xinjiang and make the territory pay for itself, the Qing court permitted local authorities great latitude in fiscal matters and encouraged the presence of Han and Chinese Muslim merchants. At the same time, the court recognized the potential for unrest posed by Chinese mercantile penetration of this Muslim, Turkic-speaking area. They consequently attempted, through administrative and legal means, to defend the native Uyghur population against economic depredation. This ethnic policy reflected a conception of the realm that was not Sinocentric, but rather placed the Uyghur on a par with Han Chinese. Both this ethnic policy and Xinjiang's place in the realm shifted following a series of invasions from western Turkestan starting in the 1820's. Because of the economic importance of Chinese merchants and the efficacy of merchant militia in Xinjiang, the Qing court revised its policies in their favor, for the first time allowing permanent Han settlement in the area. At the same time, the court began to advocate provincehood and the Sinicization of Xinjiang as a resolution to the perennial security problem. These shifts, the author argues, marked the beginning of a reconception of China to include Inner Asian lands and peoples—a notion that would, by the twentieth century, become a deeply held tenet of Chinese nationalism.
