Neutralization is a technique for the management of power in international relations: for the restraint and, to a degree, regulation of the exercise of power in areas that become focal points of competitive struggle. In this volume four leading scholars assess the potential uses of neutralization in the contemporary world. In interlocking essays the authors discuss the functions of neutralization, relevant historical precedents, preconditions for its establishment, methods of negotiating neutralization, maintenance of neutralization, and the prospects for neutralization in Southeast Asia today. Originally published in 1968. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books

published by Princeton University Press since its founding in 1905.

We revisit Lipset's law, which posits a positive and significant relationship between income and democracy. Using dynamic and heterogeneous panel data estimation techniques, we find a significant and negative relationship between income and democracy: higher/lower incomes per capita hinder/trigger democratization. Decomposing overall income per capita into its resource and non-resource components, we find that the coefficient on the latter is positive and significant while that on the former is significant but negative, indicating that the role of resource income is central to the result.

The Wildest Race Ever

As in *Halfway to Hollywood* and *The Python Years*, *Travelling to Work* contains a decade's worth of unedited, unabridged diary entries from multi-talented funnyman Michael Palin. In this volume, the last Palin has agreed to publish, the former Python documents his experience hosting a series of BBC travel documentaries even as he continues to develop new dimensions as a writer and actor. Python faithful will love Palin's candid comments and wry wit even as they are awed by his dogged work ethic and myriad accomplishments. From his work for the BBC to his dramatic portrayal of the headmaster on Alan Bleasdale's award-winning drama *GBH*, to his success as screenwriter, playwright and novelist, these pages display a true modern-day Renaissance Man. Included as well are behind the scenes stories from the making of *Fierce Creatures*, the tumultuous follow-up to *A Fish Called Wanda*, along with Palin's reflections on dealings with his manager, editors and publishers--enough insider information to please any show business enthusiast. In short, *Travelling to Work* is a roller-coaster ride driven by the Palin hallmarks curiosity, a sense of adventure and unflappable cool demonstrating he is truly, in his own words, 'someone grounded and safe who can be tempted into almost anything.'
