Shifting Shadows

2020 National Building Cost Manual

Honest Weight is the 20th century story of Toledo Scale, beginning with their fight in the first decade for weights and measures laws to outlaw dishonest scales. In narrative form, it tells the living history of the company, beginning with the founder after he was dramatically fired by National Cash Register Company. Henry Theobald then started a scale and cash register company to compete with his old boss, the legendary John Patterson of NCR. It's the story of the inventors, leaders, craftsmen and technical breakthroughs, beginning in the first year of the 20th century up to current times. Included is the story of the innovative sales techniques developed by Theobald that led to tight-fisted merchants being willing to spend four and five times as much for a Toledo "No Springs—Honest Weight" scale than for the scale it replaced. This led to Toledo becoming the best known scale brand in the nation. It includes the story of how a plastic came to be developed for Toledo Scale under the leadership of the company's second president Hubert Bennett that led him to establish a separate, wholly owned company. This company, Plaskon, became the largest plastic company in the United States for a brief time. It tells of Toledo Scale's World War II contributions in which the company played a top-secret part in the production of the Norden bombsight and the atomic bomb. The story includes quotations from both retired company executives and current employees. It includes information obtained from an unpublished factual manuscript covering the company's first 50 years, other company archives and the Toledo Blade. A dozen historical photos are displayed, which include the first DeVilbiss computing scale, a Toledo Cash Register, and a Phinney scale which was the first patented computing scale. A few Phinney scales were manufactured in 1870. Since Toledo Scale couldn't locate one to prove they were actually manufactured, they lost a huge lawsuit to Dayton Scale that almost broke the company. Also shown is a photo of Norman Bel Geddes' 1929-30 radical designs of a new factory and plant campus for Toledo Scale, never built due to the depression. The story includes the transition to electronic scales begun by the company's third president Harris McIntosh. This transition was completed in the final quarter of the century. And finally, the human story that resulted from the evolution of several different ownership's is told, until just a few years ago, Toledo Scale disappeared as a separate brand and was merged into Mettler-Toledo, Inc.

Plumber's Field Manual

Get results almost instantly without putting pencil to paper or fiddling with a calculator. Packed with charts and tables that let you simply look up the answers you need, this handy new tool for plumbers and pipe fitters gives you a ready source of commonly used calculations, formulas, and, best of all, solutions. In addition to easy-to-find answers, this guide also gives you a concise outline of trade mathematics; standard and handicapped fixture layouts; equipment weight load standards; friction tables; relevant electrical factors; guidelines for sizing water heaters; potable water standards; plastic pipe facts and figures; copper tubing and pipe facts and figures; welding and fabrication techniques; glossary of plumbing terms and abbreviations; lists of trade associations and current standards; and much, much more. For designing and estimating projects, this manual is unmatched. A great productivity booster, it will assist you in delivering prompt, on-target, and on-

the-spot estimates. It could be the most valuable tool in your kit!

Bessie Needs Hearing Aids

Did you child just get hearing aids?Is your child feeling self-conscience about their hearing loss?Bessie Needs Hearing Aids" is a children's book that will help children with hearing loss understand the process, and that they are not alone. Written and illustrated by a teenage girl who went through this process, so it will resonate with children just learning of hearing issues, or coping with wearing hearing aids. The book received numerous accolades so it was decided to make it available to all, in order to possibly help other children with hearing loss.When a child goes through the process of getting hearing aids, it is scary for them and difficult for a parent to explain. This is a story of Bessie, the bunny, who was so excited to start school only to have the kids get frustrated that she was not hearing them properly. Bessie visits the audiologist and learns about hearing aids and the happy results of getting hear aids.

Kiplinger's Personal Finance

Herman Mendoza built his kingdom in Queens, New York. He made a fortune selling cocaine with his brothers up and down the Eastern Seaboard. He had apartments around the city for his mistresses and a home in the Poconos for his beautiful nuclear family. But when he and his brothers were busted in a large-scale crackdown, his kingdom crumbled. Ready to kill himself rather than live behind bars, Herman instead came face-to-face with the all-consuming love of God. He would never be the same. Today, Herman shares his story at every opportunity, knowing that it may play a part in someone else's journey into a relationship with Jesus. An engaging and fast-paced read, *Shifting Shadows* offers hope to those in despair, and shows all of us the lengths to which God will go to bring a troubled soul home. Also available in Spanish as *Sombras*

cambiantes.
