Who Made God: Searching for a Theory of Everything God's Answers to Life's Difficult Questions Who Created God? Who Made God? God Has a Name Who Made God, Anyway?

### **The Case for God**

Written by an L. A. County homicide detective and former atheist, *Cold-Case Christianity* examines the claims of the New Testament using the skills and strategies of a hard-to-convince criminal investigator. Christianity could be defined as a “cold case”: it makes a claim about an event from the distant past for which there is little forensic evidence. In *Cold-Case Christianity*, J. Warner Wallace uses his nationally recognized skills as a homicide detective to look at the evidence and eyewitnesses behind Christian beliefs. Including gripping stories from his career and the visual techniques he developed in the courtroom, Wallace uses illustration to examine the powerful evidence that validates the claims of Christianity. A unique apologetic that speaks to readers’ intense interest in detective stories, *Cold-Case Christianity* inspires readers to have confidence in Christ as it prepares them to articulate the case for Christianity.

### **Conversations with God for Teens**

A ministry resource for motivating all Christians to become thoughtful apologists of their faith Although apologetics is as crucial today as it has ever been, the classical model for defending the faith often seems irrelevant to the 21st century where people listen with their eyes and think with their emotions. *Is Your Church Ready?* Presents a team of highly qualified Christian thinkers—including Ravi Zacharias, John Guest, Jay Budziszewski, Judy Salisbury, Dean Halverson, and Peter Grant—who build a case for the place of apologetics in the local church, home, and school. Using personal examples and illustrations they address:

- How to answer objections to Christianity
- How to equip children in the home and prepare youth to remain committed to Christ after they leave for college
- How to reach international students and the foreign-born

Included are discussion questions and a “Church Leaders Resource Guide” to the best books, articles, organizations, and

websites on the subject.

## **A God That Could Be Real**

### **God's Answers to Your Questions**

Perhaps you remember being in a university class, feeling frustrated when the respected professor dismissed questions from a student because of her religious faith. Or maybe over a business lunch one of your colleagues referred to Christianity as a fairytale, and you said nothing. Many Christians find themselves in such situations but don't speak up because they don't fully realize the strength of their own position. They feel incapable of giving reasons for the hope that is theirs. Christian apologetics is the discipline and growing body of knowledge that equips believers to address their own doubts, to converse with seekers and critics from a position of strength, and to bear witness to Christ with confidence. In the spirit of the title question, *If God Made the Universe, Who Made God?* collects 130 essays written in defense of the Christian faith. Contributors include some of the pre-eminent apologists of our time, from Lee Strobel and Charles Colson to Hank Hanegraaff, J. P. Moreland, and Ravi Zacharias. The content is grouped into ten topics: Apologetics: Introductory Issues Jesus Christ Science and Faith Cults and World Religions The Existence of God Ethics Theology The Scriptures Heaven and Hell Evangelism

### **God Is Not Great**

The renowned science writer, mathematician, and bestselling author of *Fermat's Last Theorem* masterfully refutes the overreaching claims the "New Atheists," providing millions of educated believers with a clear, engaging explanation of what science really says, how there's still much space for the Divine in the universe, and why faith in both God and empirical science are not mutually exclusive. A highly publicized coterie of scientists and thinkers, including Richard Dawkins, the late Christopher Hitchens, and Lawrence Krauss, have vehemently contended that breakthroughs in modern science have disproven the existence of God, asserting that we must accept that the creation of the universe came out of nothing, that religion is evil, that evolution fully explains the dazzling complexity of life, and more. In this much-needed book, science journalist Amir Aczel profoundly disagrees and conclusively demonstrates that science has not, as yet, provided any definitive proof refuting the existence of God. *Why Science Does Not Disprove God* is his brilliant and incisive analyses of the theories and findings of such titans as Albert Einstein, Roger Penrose, Alan Guth, and Charles Darwin, all of whose major breakthroughs leave open the possibility—and even the strong likelihood—of a Creator. Bolstering his argument, Aczel lucidly discourses on arcane aspects of physics to reveal how quantum theory, the anthropic principle, the fine-tuned dance of protons and quarks, the existence of anti-matter and the theory of parallel universes, also fail to disprove God.

### **New Proofs for the Existence of God**

This reference tool on faith presents a summary of accessible answers to over 100 commonly raised apologetic questions.

## **The God Delusion. 10th Anniversary Edition**

Suppose you could ask God any question and get an answer. What would it be? Well, young people all over the world have been asking those questions. This book is suitable for those who ever wanted to know if God is listening to them, if God can really help, if God cares about them, and if there is a God.

### **Why God?**

"Remember when you were a child and the things you wondered about God? Kids are no different today. They have questions about God that seem to have no logical explanation, but best-selling author Larry Libby offers sensitive, biblically-based answers to difficult questions. Filled with warm, heartwarming illustrations that create a comforting atmosphere for talking with children about their deep questions about God, *Who Made God?* provides a special time of sharing with your child. Help your child discover answers about the One who loves us most of all—our Heavenly Father."

### **Man's Question, God's Answer**

Who invented God? When, why, and where? Thomas Römer seeks to answer these enigmatic questions about the deity of the great monotheisms—Yhwh, God, or Allah—by tracing Israelite beliefs and their context from the Bronze Age to the end of the Old Testament period in the third century BCE, in a masterpiece of detective work and exposition.

### **Designed by God**

So, why do we believe in God? Thomas loves to think about silly questions. (Are bats really mice with wings?) But other questions are humdingers . . . like when Thomas wonders, *Why God?* Why do we believe in Him? That's when he and his sister, Hope, must go in search of a humdinger of an answer. Come along as they discover the clues God has given us to help us know how real and wonderful He truly is. Written by Dan DeWitt, an apologetics professor with a love for stories, *Why God?* takes apologetics and makes it accessible for children, not only answering their questions but also opening their hearts to the wonders of God. This B&H Kids book includes a Parent Connection, an easy tool to help moms and dads (or anyone else who loves kids) discuss the book's message with their child. We're all about connecting parents and kids to each other and to God's Word.

### **That's A Good Question**

"Magisterial. . . . A learned, brilliant and enjoyable study."—Géza Vermès, *Times Literary Supplement* In this exciting book, Paula Fredriksen explains the variety of New Testament images of Jesus by exploring the ways that the new Christian communities interpreted his mission and message in light of the delay of the

Kingdom he had preached. This edition includes an introduction reviews the most recent scholarship on Jesus and its implications for both history and theology. "Brilliant and lucidly written, full of original and fascinating insights."—Reginald H. Fuller, *Journal of the American Academy of Religion* "This is a first-rate work of a first-rate historian."—James D. Tabor, *Journal of Religion* "Fredriksen confronts her documents—principally the writings of the New Testament—as an archaeologist would an especially rich complex site. With great care she distinguishes the literary images from historical fact. As she does so, she explains the images of Jesus in terms of the strategies and purposes of the writers Paul, Matthew, Mark, Luke, and John."—Thomas D'Evelyn, *Christian Science Monitor*

## **Is Your Church Ready?**

Every believer has questions about God, the Bible, Jesus, and the purpose and meaning of life. The vexing problem is that so few believers are able to answer even the most basic ones. Without answers, doubt creeps in and the future of the church is in jeopardy. With insight and precision, Geisler and Jimenez address one hundred penetrating questions that the culture asks and Christians must be prepared to answer, including both controversial questions raging in the public sphere and personal questions about family issues, the purpose and meaning of life, and the future of the world. Christians from every walk of life, especially young believers, youth workers, and parents, will treasure this comprehensive resource. Foreword by Josh and Sean McDowell.

## **The Bible's Answers to 100 of Life's Biggest Questions**

In *The Unseen Realm*, Dr. Michael Heiser examines the ancient context of Scripture, explaining how its supernatural worldview can help us grow in our understanding of God. He illuminates intriguing and amazing passages of the Bible that have been hiding in plain sight. You'll find yourself engaged in an enthusiastic pursuit of the truth, resulting in a new appreciation for God's Word. Why wasn't Eve surprised when the serpent spoke to her? How did descendants of the Nephilim survive the flood? Why did Jacob fuse Yahweh and his Angel together in his prayer? Who are the assembly of divine beings that God presides over? In what way do those beings participate in God's decisions? Why do Peter and Jude promote belief in imprisoned spirits? Why does Paul describe evil spirits in terms of geographical rulership? Who are the "glorious ones" that even angels dare not rebuke? After reading this book, you may never read your Bible the same way again. Endorsements "There is a world referred to in the Scripture that is quite unseen, but also quite present and active. Michael Heiser's *The Unseen Realm* seeks to unmask this world. Heiser shows how important it is to understand this world and appreciate how its contribution helps to make sense of Scripture. The book is clear and well done, treating many ideas and themes that often go unseen themselves. With this book, such themes will no longer be neglected, so read it and discover a new realm for reflection about what Scripture teaches." --Darrell L. Bock, Executive Director for Cultural Engagement, Senior Research Professor of New Testament Studies, Howard G. Hendricks Center for Christian Leadership and Cultural Engagement "'How was it possible that I had never seen that before?' Dr. Heiser's survey of the complex reality of the supernatural world as the Scriptures portray it covers a subject that is strangely sidestepped. No one is going to agree

with everything in his book, but the subject deserves careful study, and so does this book." --John Goldingay, David Allan Hubbard Professor of Old Testament, School of Theology, Fuller Theological Seminary "This is a 'big' book in the best sense of the term. It is big in its scope and in its depth of analysis. Michael Heiser is a scholar who knows Scripture intimately in its ancient cultural context. All--scholars, clergy, and laypeople--who read this profound and accessible book will grow in their understanding of both the Old and New Testaments, particularly as their eyes are opened to the Bible's 'unseen world.'" --Tremper Longman III, Robert H. Gundry Professor of Biblical Studies, Westmont College

## Who Made God?

In 1906, American humorist Mark Twain published a sixty-page essay entitled "What is man?" Consisting of an interminable dialogue between a senior citizen (who believes that man is just a machine) and a young man (who believes nothing in particular but is open to persuasion), it wasn't one of his finest books. But at least he tried. Authors since then seem to have avoided the subject like the plague, often tackling the respective roles of men and women in society but seldom asking deeper questions about what it means to be human. When the psalmist asked, "What is man?" (Psalm 8 v.4) he was, I think, seeking an altogether more profound answer. Avoidance of the subject is all the more strange because there has never been a time like our own when curiosity about human origins and destiny has been greater, or the answers on offer more hotly disputed. It's a safe bet that any attempt to give the "big picture" on the origin, nature and specialness of mankind will be contentious —which might explain why writers have generally fought shy of it. Yet at heart it is the question most of us really do want answered, because the answer defines that precious thing we call our identity, both personally and as a race. The Psalmist did, of course, offer his own answer three millennia ago. Man, he claimed, was created by God for a clearly defined purpose — to exercise dominion over planet earth and (by implication) to ultimately share something of the glory of the divine nature. The rest, as they say, is history, but it's not a happy tale. As Mark Twain says in another essay; "I can't help being disappointed with Adam and Eve". Not surprisingly, then, a large proportion of humanity today are looking for alternative solutions, accepting the challenge of the Psalmist's question without embracing the optimism of his answer. In this book we are going to consider the alternative solutions on offer by considering what it means to be human against the backgrounds of cosmology (man's place in the universe), biology (man's place in the animal kingdom), and psychology (man's consciousness and mind). Finally, we return to the biblical context, arguing that the Psalmist got it right after all. Don't let the science-sounding stuff put you off. Like its popular prequel, "Who made God? Searching for a theory of everything", this book is written with a light touch in a reader-friendly and often humorous style. It is intended specifically for the non-expert, with homely verbal illustrations designed to explain and unpack the technicalities for the lay-person. As Dr. Paul Copan (Pledger Family Chair of Philosophy and Ethics, Palm Beach Atlantic University) says, "Edgar Andrews has a way of making the profound accessible. His scholarship informs the reader about key questions of our time, offering wise guidance and illumination."

## The Holy Bible

The content is geared at helping students understand homosexuality from a biblical perspective. It can also be useful for the anonymous teen who is struggling with the issue and who needs answers.

## **The Questions Christians Hope No One Will Ask**

Contains ten essays that answer over one hundred apologetic questions, such as who made God, the purpose of evil, and if Jesus rose from the dead, and addresses questions about other faiths, including Islam, Buddhism, and Mormonism.

## **The Invention of God**

It is entirely possible that God could have existed without the universe, and without humans, for all eternity. But for some reason, He decided to create anyway. What inspired Him to start the human story in the first place, and how should the answer to that question affect the way we view our lives? Few Christians ever stop to seriously consider these deepest-of-all deep questions. Jonathan Edwards explains, in his original dissertation: God's inherent predisposition to spread out His truth, goodness, and beauty motivates everything He does. So, His decision to create our universe was motivated not by a desire or need for us, but by a desire to glorify Himself. Ben Stevens' remarkable new adaptation brings Edwards' powerful arguments to life in fresh, contemporary language. In addition, thought-provoking questions for discussion or reflection invite readers to engage with the concepts and begin to apply them.

## **When Children Ask about God**

Biblical answers to twenty-five of today's most relevant questions.

## **Is God to Blame?**

From the bestselling author of *A History of God* and *The Great Transformation* comes a balanced, nuanced understanding of the role religion plays in human life and the trajectory of faith in modern times. Why has God become incredible? Why is it that atheists and theists alike now think and speak about God in a way that veers so profoundly from the thinking of our ancestors? Moving from the Paleolithic Age to the present, Karen Armstrong details the lengths to which humankind has gone to experience a sacred reality that it called God, Brahman, Nirvana, Allah, or Dao. She examines the diminished impulse toward religion in our own time when a significant number of people either want nothing to do with God or question the efficacy of faith. With her trademark depth of knowledge and profound insight, Armstrong elucidates how the changing world has necessarily altered the importance of religion at both societal and individual levels. And she makes a powerful, convincing argument for structuring a faith that speaks to the needs of our dangerously polarized age. From the Hardcover edition.

## **Who Made God?**

Stephen Hawking was recognized as one of the greatest minds of our time and a

figure of inspiration after defying his ALS diagnosis at age twenty-one. He is known for both his breakthroughs in theoretical physics as well as his ability to make complex concepts accessible for all, and was beloved for his mischievous sense of humor. At the time of his death, Hawking was working on a final project: a book compiling his answers to the "big" questions that he was so often posed--questions that ranged beyond his academic field. Within these pages, he provides his personal views on our biggest challenges as a human race, and where we, as a planet, are heading next. Each section will be introduced by a leading thinker offering his or her own insight into Professor Hawking's contribution to our understanding. The book will also feature a foreword from Academy Award winning actor Eddie Redmayne, who portrayed Hawking in the film *The Theory of Everything*, and an afterword by Hawking's daughter, Lucy Hawking, as well as personal photographs and additional archival material.

## **Who Made God?**

In the quest for the truth, you need to know what you believe and why you believe it. *Who Made God?* offers accessible answers to over 100 commonly asked apologetic questions. Bringing together the best in evangelical apologists, this guide is standard equipment for Christians who want to understand and talk about their faith intelligently. Part one answers tough questions about the Christian faith such as: • Who made God? • How can there be three persons in one God? • What is God's ultimate purpose in allowing evil? • Where did the universe come from? • How long are the days of creation in Genesis? • Did Jesus rise from the dead? • Are the records of Jesus' life reliable? • Does the Bible have errors in it? Part two answers tough questions about other faiths, including Islam, Mormonism, Hinduism, Transcendental Meditation, Yoga, Reincarnation, Buddhism, and Black Islam. Relevant stories, questions for reflection and discussion, and a comprehensive list of suggested resources help you dig deeper so you can be prepared to give careful answers that explain the reasons for your faith.

## **The Language of God**

"An alphabetical compilation of topics detailing what the Bible says about a variety of sins and personal problems that separate people from the perfect will of God"--Provided by publisher.

## **WHAT IS MAN?**

Who made God? Can God hear my prayers? Why does God let people die? The author of *When Bad Things Happen to Good People* helps parents understand their children's fears and fantasies, and offers advice on answering their questions about religion, the Bible, illness, and bereavement.

## **Cold-Case Christianity**

The *God Delusion* caused a sensation when it was published in 2006. Within weeks it became the most hotly debated topic, with Dawkins himself branded as either saint or sinner for presenting his hard-hitting, impassioned rebuttal of religion of all

types. His argument could hardly be more topical. While Europe is becoming increasingly secularized, the rise of religious fundamentalism, whether in the Middle East or Middle America, is dramatically and dangerously dividing opinion around the world. In America, and elsewhere, a vigorous dispute between 'intelligent design' and Darwinism is seriously undermining and restricting the teaching of science. In many countries religious dogma from medieval times still serves to abuse basic human rights such as women's and gay rights. And all from a belief in a God whose existence lacks evidence of any kind. Dawkins attacks God in all his forms. He eviscerates the major arguments for religion and demonstrates the supreme improbability of a supreme being. He shows how religion fuels war, foments bigotry and abuses children. The God Delusion is a brilliantly argued, fascinating polemic that will be required reading for anyone interested in this most emotional and important subject.

## **If God Made the Universe, Who Made God?**

The King James Bible for ebook readers, desktops, tablets and phones. Including Old Testament and New Testament, this is a wonderful tool that keeps the scriptures at your fingertips. The translation that became the Authorized King James Bible was begun in 1604 and in 1611 was published by the Church of England, under the direction of King James. The translation was done by forty-seven Church of England scholars, the New Testament coming from the Greek Textus Receptus (Received Text), the Old Testament from the Masoretic Hebrew text, and the Apocrypha from the Greek Septuagint (LXX), except for two Esdras from the Latin Vulgate.

## **The Man Who Made God**

Responding to contemporary popular atheism, Robert J. Spitzer's New Proofs for the Existence of God examines the considerable evidence for God and creation that has come to light from physics and philosophy during the last forty years. An expert in diverse areas, including theology, physics, metaphysics, and ethics, Spitzer offers in this text the most contemporary, complete, and integrated approach to rational theism currently available. "Skepticism about the possibility of proving the existence of God often relies on data from modern science. In this splendid new book Father Robert Spitzer explores the implications of the latest discoveries in big bang cosmology, string theory, quantum physics, and the ontology of time to craft a series of convincing philosophical arguments. To paraphrase a popular commercial, this is not your father's old 'natural theology' textbook - it's a gripping and compelling account of the best current arguments for theism." - Joseph W. Koterski, S.J., Foidham University "A most original and insightful case for the existence of God. Fr. Spitzer's new proofs pose a serious and compelling challenge to the unconscious hegemony of naturalism in the worlds of both philosophy and the sciences." - Francis J. Beckwith, Baylor University "Rare is the theologian who keeps abreast of the latest developments in fundamental physics, and even rarer the one who can discuss them with the theological and philosophical sophistication that Fr. Spitzer displays in this book. A challenging and original work." - Stephen M. Barr, University of Delaware, author of Modern Physics and Ancient Faith

## **The Unseen Realm**

Has an inquisitive child ever stumped you with a question such as, "Who created God"? "What is Heaven like?" or "Why did God create the world? Was he lonely?" These questions have actually been pondered by great thinkers such as St. Thomas Aquinas, who, guided by faith, based his answers on solid principles. "Who Created God? A Teacher's Guidebook for Answering Children's Tough Questions about God" connects common children's religious questions with probable answers based on the teachings of St. Thomas Aquinas. It makes the issues accessible to the adult layperson and provides lesson plans and activities for adults to convey them to children and young people. Adult readers and child-listeners alike will be intrigued! And both will come away with an appreciation that our faith is indeed reasonable and understandable.

## **Why God Created the World**

### **Brief Answers to the Big Questions**

Christian teenagers often face a variety of challenges in life that prompt introspective questions about faith and God's role in their lives. Buoyed by the belief the answer to every spiritual and secular question can be found in the Holy Bible, Portia Turner Merriweather asked teens to submit their most perplexing questions to test her theory. Within an easy-to-understand resource, Merriweather utilizes a modified scientific method to investigate the Bible, prove her hypothesis, and ultimately provide the answers to seventy challenging questions posed by teens such as "Can I be sure of my salvation?" and "What is the purpose of life?" or "How bad can vaping be?" and "Why does God allow suffering?" After each question, Merriweather shares biblical answers and concise explanations that invite teens to apply scripture as inspiration to not only solve daily challenges, but also build a solid foundation created from God's Word. Who Made God, Anyway? is a spiritual guide for teens that inspires godly living while providing clear, biblical answers to seventy introspective questions about faith and life.

## **Where is God in a Coronavirus World?**

Christopher Hitchens, described in the London Observer as "one of the most prolific, as well as brilliant, journalists of our time" takes on his biggest subject yet—the increasingly dangerous role of religion in the world. In the tradition of Bertrand Russell's *Why I Am Not a Christian* and Sam Harris's recent bestseller, *The End Of Faith*, Christopher Hitchens makes the ultimate case against religion. With a close and erudite reading of the major religious texts, he documents the ways in which religion is a man-made wish, a cause of dangerous sexual repression, and a distortion of our origins in the cosmos. With eloquent clarity, Hitchens frames the argument for a more secular life based on science and reason, in which hell is replaced by the Hubble Telescope's awesome view of the universe, and Moses and the burning bush give way to the beauty and symmetry of the double helix. From the Hardcover edition.

## **From Jesus to Christ**

Dr John Sentamu, Archbishop of York, says Who made God? is 'written in a very lively style and conveys complex subjects in a palatable form'. Novelist Fay Weldon calls it 'thoughtful, readable, witty, wise'. The Principal of London Theological Seminary declares: 'Richard Dawkins has more than met his match.' A book by a distinguished scientist about the existence of God, with chapter headings like 'Steam engine to the stars' and 'The tidy pachyderm' has to be different. It is. Addressing profound questions of science, philosophy and faith with an amazing lightness of touch, Edgar Andrews exposes the pretensions of the 'new atheism', blending incisive arguments with gentle humour. However, his aim is not simply to rebut the aggressive atheism of our age but to provide a logically consistent and altogether more satisfying alternative. His fellow physicists dream of discovering a 'theory of everything' embracing every physical phenomenon in the cosmos. But can there be a theory of everything that also includes the realms of the heart, mind, conscience and spirit? Yes, indeed, as this book shows. It is the 'hypothesis of God', a concept that towers above the barren landscape of atheism and despair.

## **Why Science Does Not Disprove God**

Is God to blame? This is often the question that comes to mind when we confront real suffering in our own lives or in the lives of those we love. Pastor Gregory A. Boyd helps us deal with this question honestly and biblically, while avoiding glib answers. Writing for ordinary Christians, Boyd wrestles with a variety of answers that have been offered by theologians and pastors in the past. He finds that a fully Christian approach must keep the person and work of Jesus Christ at the very center of what we say about human suffering and God's place in it. Yet this is often just what is missing and what makes so much talk about the subject seem inadequate and at times even misleading. What comes through in *Is God to Blame?* is a hopeful picture of a sovereign God who is relentlessly opposed to evil, who knows our sufferings and who can be trusted to bring us through them to renewed life.

## **The New Answers Book**

A paradigm-shifting blend of science, religion, and philosophy for agnostic, spiritual-but-not-religious, and scientifically minded readers Many people are fed up with the way traditional religion alienates them: too easily it can perpetuate conflict, vilify science, and undermine reason. Nancy Abrams, a philosopher of science, lawyer, and lifelong atheist, is among them. And yet, when she turned to the recovery community to face a personal struggle, she found that imagining a higher power gave her a new freedom. Intellectually, this was quite surprising. Meanwhile her husband, famed astrophysicist Joel Primack, was helping create a new theory of the universe based on dark matter and dark energy, and Abrams was collaborating with him on two books that put the new scientific picture into a social and political context. She wondered, "Could anything actually exist in this strange new universe that is worthy of the name 'God?'" In *A God That Could Be Real*, Abrams explores a radically new way of thinking about God. She dismantles several common assumptions about God and shows why an omniscient,

omnipotent God that created the universe and plans what happens is incompatible with science—but that this doesn't preclude a God that can comfort and empower us. Moving away from traditional arguments for God, Abrams finds something worthy of the name "God" in the new science of emergence: just as a complex ant hill emerges from the collective behavior of individually clueless ants, and just as the global economy emerges from the interactions of billions of individuals' choices, God, she argues, is an "emergent phenomenon" that arises from the staggering complexity of humanity's collective aspirations and is in dialogue with every individual. This God did not create the universe—it created the meaning of the universe. It's not universal—it's planetary. It can't change the world, but it helps us change the world. A God that could be real, Abrams shows us, is what humanity needs to inspire us to collectively cooperate to protect our warming planet and create a long-term civilization.

## **Who Made God?**

2011 Retailers Choice Award winner! "Why are Christians against same-sex people getting married? . . . Why do you believe God exists at all? . . . Why would God allow evil and suffering? . . . Why trust the Bible when it's full of mistakes? . . . How could a loving God send people to hell? . . . What makes you think Jesus was more than just a good teacher? . . . Why are Christians so judgmental?" Some questions can stop a conversation. Today, more than ever, people are raising difficult, penetrating questions about faith, God, and the Bible. Based on an exclusive new Barna survey of 1,000 Christians, *The Questions Christians Hope No One Will Ask* presents compelling, easy-to-grasp answers to ten of the most troubling questions facing Christians today. These include everything from the existence of heaven to the issues of abortion and homosexuality, as well as the question of whether evolution eliminates our need for a God.

## **Who Made God: Searching for a Theory of Everything**

If man could create God and have Him do his bidding, what would be the result? Serapis Golden was given life at the Reistenberg Genetic Institute to accomplish what no man had done in 2,000 years, and bring peace and prosperity to all the world. But when Golden decides to exercise his god-like power to reduce the existing world to ashes before establishing a new Garden of Eden, chaos and conflict become his tools of creation. American freelance stringer Daniel McCord finds himself made part of the team undertaking the dangerous mission of opposing the manufactured savior, along with Knights Templar commandos and Dr. Sophie Edwards, the English bio-engineer for the World Health Organization. The fate of humanity depend on the team determining whether Serapis Golden is God or man, and if any of them will live long enough to prove it.

## **God's Answers to Life's Difficult Questions**

Does the Bible really answer some of life's most difficult questions? How does God provide direction to the common issues that we face? We live in a world where we all have to deal with the realities of stress, failure, crises, loneliness and change. In this six-session DVD study, renowned pastor and bestselling author Rick Warren

takes you inside the Bible to discover answers to six of life's toughest questions. Drawing from the examples of different biblical characters who faced the same issues, Warren offers concise, practical insights you can understand and apply in order to move past everyday struggles and experience a life of purpose, peace and significance. Life's difficult questions do have answers. Answers from the Bible that can change your outlook -- and your life. The God's Answers to Life's Difficult Questions Study Guide will help you fully engage with the six-session group DVD study. The six DVD session titles include: Session One: How Can I Cope with Stress? Session Two: How Can I Rebound from Failure? Session Three: How Can I Be Confident in a Crisis? Session Four: How Can I Live Above Average? Session Five: How Can I Overcome Loneliness? Session Six: How Can I Ever Change? [Thumbnail DVD image] Designed for use with the God's Answers to Life's Difficult Questions DVD.

## Who Created God?

Dr Francis S. Collins, head of the Human Genome Project, is one of the world's leading scientists, working at the cutting edge of the study of DNA, the code of life. Yet he is also a man of unshakable faith in God. How does he reconcile the seemingly unreconcilable? In *THE LANGUAGE OF GOD* he explains his own journey from atheism to faith, and then takes the reader on a stunning tour of modern science to show that physics, chemistry and biology -- indeed, reason itself -- are not incompatible with belief. His book is essential reading for anyone who wonders about the deepest questions of all: why are we here? How did we get here? And what does life mean?

## Who Made God?

How belief in a loving and sovereign God helps us to make sense of and cope with the coronavirus outbreak. We are living through a unique, era-defining period. Many of our old certainties have gone, whatever our view of the world and whatever our beliefs. The coronavirus pandemic and its effects are perplexing and unsettling for all of us. How do we begin to think it through and cope with it? In this short yet profound book, Oxford mathematics professor John Lennox examines the coronavirus in light of various belief systems and shows how the Christian worldview not only helps us to make sense of it, but also offers us a sure and certain hope to cling to.

## God Has a Name

Many of us ache for relationship with God, yet feel distant and disconnected from him. As if he's more of an idea we believe in our head than a person we relate to. But God has a name: Yahweh. This one simple idea has the potential to radically alter how you relate to God, not as a doctrine, but as a relational being who responds to you in an elastic, back-and-forth way. Why do we feel this gap between us and God? Could it be that a lot of what we think about God is wrong? Not all wrong, but wrong enough to mess up how we relate to him? What if our "God" is really a projection of our own identity, ideas, and desires? And what if the real God is different, but far better than we could ever imagine? This book is a

simple, but profound guide to what God says about himself. In his signature conversational-but-smart style, John Mark Comer takes the reader line by line through Exodus 34:6-8—Yahweh's self-revelation on Mount Sinai—called by some scholars the one most quoted verse in the Bible, by the Bible. In it, we see who God says he is. It turns out, who God is just might surprise you, and change everything.

## **Who Made God, Anyway?**

"Remember when you were a child and the things you wondered about God? Kids are no different today. They have questions about God that seem to have no logical explanation, but best-selling author Larry Libby offers sensitive, biblically-based answers to difficult questions. Filled with warm, heartwarming illustrations that create a comforting atmosphere for talking with children about their deep questions about God, *Who Made God?* provides a special time of sharing with your child. Help your child discover answers about the One who loves us most of all—our Heavenly Father."
