Worldviews and Ecology: Religion, Philosophy, and the

Spiritual ecology is an emerging field in religion, conservation, and academia recognizing that there is a spiritual facet to all issues related to conservation, environmentalism, and earth stewardship. Proponents of Spiritual Ecology assert a need for contemporary conservation work to include spiritual elements and for contemporary religion and spirituality to include awareness of and engagement in ecological issues.

Worldviews: Global Religions, Culture, Ecology is an international academic journal that studies the relationships between religion, culture, and ecology worldwide. The journal addresses how cultural and ecological developments influence the world's major religions, giving rise to new forms of religious expression, and how in turn religious belief and cultural background can influence peoples' attitudes toward ecology.

Worldviews and Ecology: Religion, Philosophy, and the

The increasing pressures on the earth community due to resource exploitation, population growth, and volatile social conflicts have raised the question of the need for creative rethinking of philosophical and religious worldviews in relation to nature and the environment. This volume is an attempt to address that crisis.
