Writing Strategies for the Common Core

Elementary-school students need to learn to write explanatory/informational, argument, and narrative text types and respond to literature, both for standardized tests and, more importantly, real-world writing. With a balanced literacy approach, Wolfe provides core instruction, teaching strategies, and mini-lessons on these text types, each of which can be delivered across content areas or as a complete unit of instruction. Mini-lessons are provided for grades 3-5 and include materials lists, overviews, planning tips, procedures (including modeling, guided practice, and independent practice opportunities), reading connections, formative assessments, and reproducible graphic organizers for scaffolding. Prerequisite skill overviews and rubrics--both analytic for formative assessments and holistic for summative assessments--are also provided for each unit to simplify your teaching and ensure student success.

processing of any texts they might like to attempt, and it is important every step of the way that they have successful experiences in reading independently those texts that are available at each point in time. In a literacy-rich classroom with a multitext approach, readers have the opportunity to hear written texts read aloud through interactive read-aloud, and so they build a rich treasure chest of known stories and nonfiction books that they can share as a classroom community" --

Through My Eyes

As a teacher of literacy, you transform the lives of the children in your classroom. The Reading Minilessons Book offers short, concise, purposeful lessons with a practical application in a specific area of literacy. Each minilesson engages children in inquiry that leads to the discovery and understanding of a general principle. Growing out of the interactive read-aloud experience and linked to independent reading, teachers use many of these texts as examples from which they generalise the understanding. Each of the four types of reading minilessons (management, literary analysis, strategies and skills, and writing about reading) in The Reading Minilessons Book is organised into broad categories, or "umbrellas." An umbrella helps children develop a deeper understanding of concepts and their application. As lessons build on each other, teachers will often make an anchor chart, or visual representation, that can be referenced again and again as children encounter new texts and/or minilessons.
