While The House of Hunger is the centerpiece of this collection, readers are also treated to a series of short sketches in which Marechera, with angry humor, further navigates themes of madness, violence, despair, and survival.

## **Cambridge International AS/A Level Geography Revision Guide 2nd edition**

The first single-volume history of Zimbabwe with detailed coverage from pre-colonial times to the present, this book examines Zimbabwe's pre-colonial, colonial and postcolonial social, economic and political history and relates historical factors and trends to recent developments in the country. Zimbabwe is a country with a rich history, dating from the early San hunter-gatherer societies. The arrival of

British imperial rule in 1890 impacted the country tremendously, as the European rulers exploited Zimbabwe's resources, giving rise to a movement of African nationalism and demands for independence. This culminated in the armed conflict of the 1960s and 1970s and independence in 1980. The 1990s were marked by economic decline and the rise of opposition politics. In 1999, Mugabe embarked on a violent land reform program that plunged the nation's economy into a downward spiral, with political violence and human rights violations making Zimbabwe an international pariah state. This book will be useful to those studying Zimbabwean history and those unfamiliar with the country's past.

He analyses the responses of the ruling (including official) elite, the black petty bourgeoisie, and the group associated with the former Rhodesian Front.

### **Cambridge IGCSE® and O Level Business Studies Revised Coursebook**

Becoming Zimbabwe is the first comprehensive history of Zimbabwe, spanning the years from 850 to 2008. In 1997, the then Secretary General of the Zimbabwe Congress of Trade Unions, Morgan Tsvangirai, expressed the need for a "more open and critical process of writing history in Zimbabwe. The history of a nation-in-the-making should not be reduced to a selective heroic tradition, but should be a tolerant and continuing process of questioning and re-examination." Becoming Zimbabwe tracks the idea of national belonging and citizenship and explores the nature of state rule, the changing contours of the political economy, and the regional and international dimensions of the country's history. In their Introduction, Brian Raftopoulos and Alois Mlambo enlarge on these themes and Gerald Mazarire's opening chapter sets the pre-colonial background. Sabelo Ndlovu tracks the history up to WWII and Alois Mlambo reviews developments in the settler economy and the emergence of nationalism leading to UDI in 1965. The politics and economics of the UDI period, and the subsequent war of liberation, are covered by Joseph Mtisi, Munyaradzi Nyakudya and Teresa Barnes. After independence in 1980, Zimbabwe enjoyed a period of buoyancy and hope. James Muzondidya's chapter details the transition 'from buoyancy to crisis', and Brian Raftopoulos concludes the book with an analysis of the decade-long crisis and the global political agreement which followed. '... a profoundly new history of Zimbabwe that tears apart all of the old certainties'

## **Immigration and Development**

The book represents a contribution to policy formulation and design in an increasingly knowledge economy in Zimbabwe. It challenges scholars to think about the role of education, its funding and the egalitarian approach to widening access to education. The nexus between education, democracy and policy change is a complex one. The book provides an illuminating account of the constantly evolving notions of national identity, language and citizenship from the Zimbabwean experience. The book discusses educational successes and challenges by examining the ideological effects of social, political and economic considerations on Zimbabwe's colonial and postcolonial education. Currently, literature on current educational challenges in Zimbabwe is lacking and there is very little published material on these ideological effects on educational development in Zimbabwe. This book is likely to be one of the first on the impact of social, political and economic meltdown on education. The book is targeted at local and international academics and scholars of history of education and comparative education, scholars of international education and development, undergraduate and graduate students, and professors who are interested in educational development in Africa, particularly Zimbabwe. Notwithstanding, the book is a valuable resource to policy makers, educational administrators and researchers and the wider community. Shizha and Kariwo's book is an important and illuminating addition on the effects of social, political and economic trajectories on education and development in Zimbabwe. It critically analyses the crucial specifics of the Zimbabwean situation by providing an in depth discourse on education at this historical juncture. The book offers new insights that may be useful for an understanding of not only the Zimbabwean case, but also education in other African countries. Rosemary Gordon, Senior Lecturer in Educational Foundations, University of Zimbabwe Ranging in temporal scope from the colonial era and its

elitist legacy through the golden era of populist, universal elementary education to the disarray of contemporary socioeconomic crisis; covering elementary through higher education and touching thematically on everything from the pernicious effects of social adjustment programmes through the local deprofessionalization of teaching, this text provides a comprehensive, wide ranging and yet carefully detailed account of education in Zimbabwe. This engagingly written portrayal will prove illuminating not only to readers interested in Zimbabwe's education specifically but more widely to all who are interested in how the sociopolitical shapes education- how ideology, policy, international pressures, economic factors and shifts in values collectively forge the historical and contemporary character of a country's education. Handel Kashope Wright, Professor of Education, University of British Columbia

## **Cambridge IGCSE® Accounting Workbook**

A feel-good novel for fans of *A Man Called Ove* and *The Rosie Project*, about an eccentric, language-loving bachelor and the cat that opens his eyes to life's little pleasures *The Silver Linings Playbook* author Matthew Quick: "A delightfully absurd, life-affirming celebration. I literally stood up and cheered as I read the last page." When Samuel, a lonely linguistics lecturer, wakes up on New Year's Day, he is convinced that the year ahead will bring nothing more than passive verbs and un-italicized moments—until an unexpected visitor slips into his Barcelona apartment and refuses to leave. The appearance of Mishima, a stray, brindle-furred cat, becomes the catalyst that leads Samuel from the comforts of his favorite books, foreign films, and classical music to places he's never been (next door) and to people he might never have met (a neighbor with whom he's never exchanged a word). Even better, the Catalan cat leads him back to the mysterious Gabriela, whom he thought he'd lost long before, and shows him, in this international bestseller for fans of *The Rosie Project*, *The Solitude of Prime Numbers*, and *A Man Called Ove*, that sometimes love is hiding in the smallest characters. From the Trade Paperback edition.

### **The Chartered Secretary**

This anthology comprises the stories of 31 women who grew up in two countries, Zimbabwe prior to Independence and Zimbabwe post-1980. The contributors reflect on their childhoods with refreshing candour. Many of their memories retain the crystalline clarity of childhood and thus provide insights into worlds that have

often remained unexplored. Behind these women stood dedicated, hard-working parents - often teachers, nurses or businessmen and women - determined that their children succeed through education. The commitment of this emerging middle class provides us with a tragic reminder of the negative obduracy of the colonial regime which consistently denied such citizens the vote. Nonetheless, we are repeatedly reminded not of the dark side of an essentially racist regime, but of the joys of a secure childhood when parents and communities were steadfast in their values, and families consistently offered stability and security. Few will read Township Girls: The Cross-Over Generation without feeling that they have learned something new and been invited into a different world.

## **Laddie: A True Blue Story**

Part III focuses on the organization, delivery and evaluation of mental health services, including the criminalization of mental illness, the challenges posed by HIV, and the importance of stigma. This is a key research reference source that will be useful to both undergraduates and graduate students studying mental health and illness from any number of disciplines.

Pakistan, since its independence in 1947, had to face tumultuous years for the first four decades. Despite the many challenges, both internal and external, the country

was able to register a 6 per cent average annual growth rate during the first forty years of its existence. The country was ahead of India and Bangladesh in all economic and social indicators. Since 1990, the country has fallen behind its neighbouring countries and has had a decline in the growth rate. This book attempts to examine the reasons behind this slowdown, the volatile and inequitable growth of the last twenty-five years, and through a process of theoretical and empirical evidence argues that the most powerful explanatory hypothesis lies in the decay of institutions of governance. It also suggests a selective and incremental approach of restructuring some key public institutions that pertain to accountability, transparency, security, economic growth, and equity.

## **A Handbook for the Study of Mental Health**

The diamond fields of Chiadzwa, among the world's largest sources of rough diamonds have been at the centre of struggles for power in Zimbabwe since their discovery in 2006. Against the backdrop of a turbulent political economy, control of Chiadzwa's diamonds was hotly contested. By 2007 a new case of 'blood diamonds' had emerged, in which the country's security forces engaged with informal miners and black market dealers in the exploitation of rough diamonds, violently disrupting local communities and looting a key national resource. The formalisation of diamond mining in 2010 introduced new forms of large-scale theft, displacement and rights abuses. *Facets of Power* is the first comprehensive account of the emergence, meaning and profound impact of Chiadzwa's diamonds. Drawing on new fieldwork and published sources, the contributors present a graphic and accessibly written narrative of corruption and greed, as well as resistance by those who have suffered at the hands of the mineral's secretive and violent beneficiaries. If the lessons of resistance have been mostly disheartening ones, they also point towards more effective strategies for managing public resources, and mounting democratic challenges to elites whose power is sustained by preying on them.
